Solari Report Update

The Emerging Multipolar World with Saker: Russia, Syria & Recommendations for a Trump Presidency - September 29th

To

"France always had this balanced position that in so many conflicts was the voice of peace. I intend to maintain that. De Gaulle was pleading for a multipolar world." ~ Marine Le Pen

This week on the Solari Report, [The Saker](#) will join me for his quarterly update on the shift to a multipolar world.

We will discuss the recent Duma elections in Russia as well as current developments in Syria and the implications for global geopolitics.

In his [quarterly report in June](#), Saker described the policies likely in a Clinton presidency and the risks of war. In this report, at my request, he will review his top 10 recommendations for a Trump presidency.

We also celebrate the extraordinary accomplishments of the 9/11 Truth movement, as described in Saker's [article published on the 9/11 anniversary](#).

Throughout this fascinating interview, Saker synthesizes these global developments into several significant insights.

This is the last week of the month – so no *Money & Markets*. If you have not listened

yet, I recommend last week's *Money & Markets*. I issued a warning that the Presidential campaign is a distraction from serious political and financial developments underway. I am concerned that the "slow burn" is growing tired. Institutional and structural changes are quietly underway that many people may experience as a "controlled demolition" in the first two years of a new administration. Signs of "cut and run" by serious players are growing. It is critical that US voters focus on state and local elections and referendums designed to compromise the US Constitution.

Post and e-mail your questions for *Ask Catherine* and I will address in the subscriber input area or in *Money & Markets* the following week.

Have a wonderful week!

Catherine Austin Fitts

The Joseph P. Farrell Grand Organ Crowdfund Launch Party

Join Dr. Joseph Farrell and Catherine at the Launch Party!

**Saturday, October 15, 2016, 7-11pm
Tulsa, Oklahoma**

By Catherine Austin Fitts

Are you ready for the Joseph P. Farrell Pipe Organ Crowdfund? Our team is working with some of our favorite FOJ – Friends of Joseph – to launch a crowdfunding for a virtual pipe organ (that is a very real organ with digital pipes) for our dear friend and ally Dr. Joseph Farrell. Stay tuned for the “high octane” composition that flows from Joseph and his new organ.

We are converging on Tulsa from all four directions on October 15th to drink wine, share a great dinner and celebrate the good things that flow from friendship, music and merriment. You do not want to miss this historic launch party in the heartland of America!

The Joseph P. Farrell Pipe Organ Crowdfund...it's coming!

Here is a picture from our organ builder Chris Martin of a similar organ to the one that will be built for Joseph:

Highlights from Last Week - Rebuilding a Local Economy

This week on the Solari Report, I will walk you through the opportunities, risks and “who’s who” of rebuilding a local economy.

As described in the [2nd Quarter 2016 Wrap Up](#), one of the essential steps in increasing productivity growth and prosperity is to realign living systems with financial systems. This realignment means decentralizing our economy – rebuilding one element and one place at a time. This task involves rebuilding family wealth and improving productivity growth in the G-7 nations, particularly as it relates to government budgets, health care, and education.

Rebuilding local economies has been a regular topic on the Solari Report. We will publish my outline with a collection of links to the best Solari Reports, audio seminars and articles over the last decade.

In America, rebuilding our economy will require broad-based leadership and teamwork. I strongly encourage US subscribers to invest time between now and November in following their state and local elections. Now is your opportunity to work with friends, family and neighbors to support the leadership essential to helping us to rebuild our local economies.

In *Money & Markets* this week I will discuss the latest in financial and geopolitical news. I issue a serious warning about what the patterns of current financial fraud mean about what could happen after the election.

In *Let’s Go to the Movies*, I will review *Sully*, Clint Eastwood’s new movie about pilot Chesley Sullenberger, the US Airways captain who successfully executed an emergency landing in the Hudson River in New York City on January 15, 2009 after a flock of geese had struck and disabled the aircraft engines soon after takeoff. All of the 155 passengers and crew aboard survived, saved by another extraordinary New

York volunteer and NYPD rescue effort described in the documentary [Miracle of the Hudson Plane Crash](#).
