“When you are in the news business, always expect the unexpected.” ~ Helen Thomas

Last weekend I was on the road, driving to Dr. Farrell’s house for two days of intense conversations.
about what happened during the 3rd Quarter and what Joseph and I see unfolding before us currently. This was a long road trip – but as you will soon hear – well worth it.

This coming week the Solari Report will publish the first part of this collaboration – covering the accelerating economic, financial and geopolitical change and what it means to you. We also discuss Josephs new book: Hess and the Penguins: the Holocaust, Antartica and the Strange Case of Rudolf Hess. This is the next book in Joseph’s amazing series on the Nazis and what their history says about the real governance structure of Planet Earth. We also touch on the Dr. Joseph P. Farrell Virtual Pipe Organ Crowdfund.

The following week, in the second part, we cover culture, science & technology, unanswered questions, go local and inspiration.

Make sure to access the News Trends & Stories section of the 3rd Quarter Wrap Up web presentation linked from your subscriber links in this commentary published on Thursday. Our web presentation includes:

- **Control 101** – During the last week of the 3rd Quarter Wrap Up roll out, I will publish my overview of how the centralized control systems works. If you want to understand what is happening in the financial markets and geopolitics, it is essential to understand how the people participating in the transactional ecosystems are controlled individually and collectively.
- **News Trends & Stories** – Our Top Picks editor
Brad Eddins has done an outstanding job of presenting top trends, stories and videos of the 3rd Quarter Economics & Finance, Geopolitics, Culture, Science and Technology, UnAnswered Questions, Go Local and Inspiration.

- **Financial Markets** – a roundup of market and commodities charts from the 3rd Quarter.

In *Money & Markets*, I will discuss the latest financial and geopolitical news.

In *Let’s Go to the Movies*, I will review Ken Burn’s 12-hour, 6-part series *The National Parks: America’s Best Idea*. The US government owns a significant amount of land. This land constitutes a national treasure – one that needs to be well and lawfully managed. Agenda 21 (now 30), recent fires and irresponsible activist proposals all suggest another reason to be concerned by monkey business related to US finances and accounting and the efforts to sabotage the US Constitution.

Special Solari Report: Bitcoin – The Op with Harry Blazer

“Op: a set of planned actions for a particular purpose.” ~ Merriam-Webster Dictionary

“You can’t solve a political problem with a financial product.” ~ Catherine Austin Fitts

This week Harry Blazer joins me for a Special Solari Report to discuss the dark side of the cryptocurrency revolution. Whether you choose to speculate in cryptocurrencies or not, make sure you understand their deeper nature as bubbles.

Subscriber's can see it here.

The New Missing Money Webpage

$21 Trillion dollars is missing from the US government. That is $65,000 for every person in America. That is more than our entire national debt!

What's going on? Where is the money? How could this happen? How much has really gone missing? What would happen if a corporation failed to pass an audit like this? Or a taxpayer?

This means the Fed and their member banks are transacting government money outside the law. So are the corporate contractors that run the payment systems. So are the Wall Street firms who are selling government securities without full disclosure. Would your banks continue to handle your bank account if you behaved like this? Would your investors continue to buy your securities if you behaved like this? Would your accountant be silent?

See it here.
Highlights from Last Week - Precious Metals Market Report with Franklin Sanders

This week Franklin Sanders joins me on the Solari Report update us on the gold and silver markets. Login to see his latest charts in the Subscriber Links which will be posted on Monday.

Following his update, Franklin and I will have a serious conversation about current events – including the effort to divide and conquer Americans, trillions missing from the US government, the “pump” of the cryptocurrency markets (includingfunneling significant money to activists and hackers, and the importance of preserving and enforcing the US Constitution.

Naysayers moan that we cannot enforce the Constitution, but I disagree. If you believe it is not possible, then you do not understand what we live with now and what will happen to you if we lose it.
