3rd Quarter Wrap Up - Control 101
This week on the Solari Report, my discussion with Dr. Joseph P. Farrell on the most important News Trends & Stories of the 3rd Quarter Wrap Up continues with Part II.

In Part I, Joseph and I covered the accelerating economic, financial and geopolitical change. We discussed Joseph’s new book: Hess and the Penguins: the Holocaust, Antarctica and the Strange Case of Rudolf Hess. We also touched on the Dr. Joseph P. Farrell Virtual Pipe Organ Crowdfund.

This week we cover five areas – culture, science & technology, unanswered questions, go local and inspiration. Joseph’s understanding of the importance of culture to accelerating change always inspires me.

Make sure to access the News Trends & Stories section of the 3rd Quarter Wrap Up web presentation linked from your subscriber links. Our web presentation includes:

- **Control 101** – During the last week of the 3rd Quarter Wrap Up roll out, I will publish my overview of how the centralized control systems works. If you want to understand what is happening in the financial markets and geopolitics, it is essential to understand how the people participating in the transactional ecosystems are controlled individually and collectively.
- **News Trends & Stories** – Our News Trends & Stories editor Brad Eddins has done an outstanding job of presenting top trends, stories and videos of the 3rd Quarter.
- **Financial Markets** – a roundup of market and

**Money & Markets - October 6, 2017**

**Forum Borealis: This is**
commodities charts from the 3rd Quarter.

In *Money & Markets*, I will discuss the latest financial and geopolitical news, including devastating fires in California, tax reform, and missing money.

In Let’s Go to the Movies, I will review the TV series *Game of Thrones*, which just finished its seventh season. The series explores the brutal nature of power politics and war. Control in our society has always been based on physical control. However, decades of peace managed with more subtle financial and legal controls in the developed world have resulted in a general population who often does not understand what it is like to live with violence in our day-to-day lives. *Game of Thrones* is a mythical reminder of that violence and how it plagues the inter-generational dynasties managing life at the top.

Special Solari Report For Subscribers: How the U.S. Federal Government Handles Taxation for Cryptocurrency

By Michele Ferri and Jonathan Lurie

To learn more about the investment implications of cryptocurrencies, you can refer to Bitcoin: The Op, a Solari Report with Harry Blazer.

1. Introduction

The only certainties in life are death and taxes, and while you can’t take your bitcoin to your grave, the taxman certainly wants to take a cut every year before that. Cryptocurrency is a new enough concept that much of the tax treatment is either not fully formed or not widely understood. Over the course of this article, we hope to cover some general rules and trends regarding the United States’ federal tax treatment of cryptocurrencies. This article will give you step by step guidelines for how to handle the taxation of your, or your clients’, cryptocurrency.

Highlights from Last Week - 3rd Quarter Wrap Up - News Trends & Stories Part I with Dr. Joseph P. Farrell

Last weekend I was on the road, driving to Dr. Farrell's house for two days of intense conversations about what happened during the 3rd Quarter and what Joseph and I see unfolding before us currently. This was a long road trip – but as you will soon hear – well worth it.

This coming week the Solari Report will publish the first part of this collaboration – covering the accelerating economic, financial and geopolitical change and what it means to you. We also discuss Josephs new book: Hess and the Penguins: the Holocaust, Antarctica and the Strange Case of Rudolf Hess. This is the next book in Joseph's amazing series on the Nazis and what their history says about the real governance structure of Planet Earth. We also touch on the Dr. Joseph P. Farrell Virtual Pipe Organ Crowdfund.
