Cash and Precious Metals

Question: From ER

Hello Catherine,

I am a new subscriber. I came here, because I am wanting to learn and understand finances from a more sovereign prospective. I want to be free of companies and systems that are trying to control me (which I have been very successful doing in other areas of my life). I want to understand better, so I can make better choices moving forward. I want to move my money out of a big bank into something local, but I do not know what to look for. I also am still trying to understand gold/silver, and planning for my future. I am working on many small changes to help my family and I, to be able to stand on our own two feet. Good things are happening, but I am definitely carrying some fear about money decisions. I am a single mother, beginning the process of providing for my family on my own. I trust God will help guide me, but I also know I need to do my homework. I have been slowly going through the archives, learning all that I can, but it is so much information to take in! I understand that every person's situation is different, and what one person is comfortable with isn't something that would work for another person, but is there a "baby step" guide to help people like me start to understand and make better choices about where we put our money? No matter what, I am grateful for all the information here, and will keep reading and learning.

Thank you so much for all your wisdom you are sharing!

Question: From MY (email)

Hi Catherine,

My wife and I are new subscribers and enjoying the content.

We heard on one of your reports that there are certain banks that are better to keep your money in whilst this great reset is invoked.

What banks are those?

Thanks in advance.

Question: From RB

[Not really precious metal but...]

Locally here in SE Pennsylvania, scrap collectors would pay \$10-\$20 for a used catalytic converter. Now we are being offered as much as \$500 for a catalytic converter. This is s big change, a huge jump in price. **What changed?**

Standard scrap has also jumped from \$8 per 100lbs, to \$12-\$13 per 100lbs.

Are we about to witness the rise of the US dollar? I have been following Steven for awhile and his theory is starting to be proven correct. A rising US dollar, GFC 2.0, recession in 2021.

Covid-19

Question: From LDS

It's obvious that Mr. Global has hijacked the virus, whatever it is, to suit his purposes. I don't know anyone who has ever died from influenza, but yet I know many people who have died from whatever this so-called Covid-19 virus is. Just because it's been hijacked and manipulated doesn't mean that whatever is happening isn't real and deadly. **So, what is it?**

Question: From JW (email)

[Not really a question, just a thought about masks]

Hello Catherine!

Earlier tonight I was watching my boys work on animations and films using their new iPads. The topic of “Deep-Fake” videos came up and how they would love to try the software so they could make funny memes about Fauci or animate Birx’s scarf lol. I had no idea what a “Deep Fake” was so I did some research. You probably know but Deep Fakes are videos made of a person, usually a celebrity, saying something they normally would never say. They are also used to put people in porn films they never agreed to and other horrible stuff. Yikes. My poor kids 14 & 9 just wanted to make a funny meme for heaven’s sake!

The most interesting fact I found out about the Deep Fake video technology was that it’s difficult making the videos look real because they have a hard time syncing the mouth with other parts of the face. Then I remembered, sometime last month you said maybe the masks are because of clones, they can’t get the mouth to look right. I laughed a bit but it gave me the chills and I filed that thought away...

Maybe you are right except it’s for digital “Deep Fake” videos that they would use after Biden dies before he is supposed to, or they just want to “elect” fake people from now on.

It was just a thought that made the hair on the back of my neck stand up. Ugh. I hate masks.

Does anyone have any “high octane speculation” as to what the hell this is all about? Good God.

Question: From MR

Catherine, if you look at US patent US2020279585(A1), dated 2016, submitted by Richard Rothschild. It's title is System and Method for Testing for COVID-19. That is COVID-19 was around before 2016 and testing methods were being developed!!!!This pandemic was planned!

CAF Notes & Links:

From what I can tell pandemics have been planned/and or used to consolidate political and economic power ever since the bubonic plague. I am researching whether the pattern is associated with historical changes to the reserve currencies.

Question: From CZ

[Not a question but may be worth including]

Dear Catherine, Darlene, and our terrific Solari Community, The magic virus hit our home this January. Being Mexican, I was prepared for months with Ivermectin by my side. We were told to take it, without any delay, upon the very first symptoms.

Out of the blue one day, I woke up and my nose and ears began to suddenly, rapidly and violently become congested. I felt strangely weak. I took 12mg. of Ivermectin and within an hour that bizarre congestion activity in my head came to a sudden halt. There was an intense, symptomless struggle within my body. Day 4 seemed to be a repeat of Day 1. This reminded me very much of Ulrike's twitter post (<https://www.technology.org/2020/11/15/researchers-engineer-tiny-shape-changing-machines-that-deliver-medicine-to-the-gi-tract/>). At the end of Day 5, as suddenly as "it" arrived, "it" left. My husband, my male guest, my 16 year old daughter and I all displayed different symptoms. The younger children had minor sniffles.

I'm convinced this was not a virus. For me, it was an assassination attempt. Somehow this has emboldened me and I feel nothing short of crowned because my faith, hope and love have been increased.

It is with great love for each of you that I share this. Thank you, Catherine and Darlene for your work, your example and your training.

CAF Notes & Links:

Great description.

Sounds like a more virulent version of what I got last February – was just using megadoses of vitamins. It hung around forever – it took me until lots of sun in August to get rid of the lingering cough and congestion.

Really appreciate the reports. It really does pay to have Ivermectin or HCQ on hand

Question: From WB

Previously, you mentioned Mr. Global is acting as if there is a coming hard deadline. From what I have seen, it is likely driven by people waking up and recognizing the Disney Land/Looney Toons reality. During campaign season I saw ardent Biden supporters remove their signs when the Hunter Biden scandal surfaced. We are seeing this further with the recent “GameStonks” debacle.

Side note, I would really enjoy expanded community features, like Dr. Farrel is implementing on Giza Deathstar.

Thanks for all the hard work you and the Solari team accomplish!

Catherine, “The Lives of Others,” this week’s Let’s Go to the Movies is one of my favorite films. Is it possible that “Never Look Away” from the same director, Florian Henckel Von Donnersmarck, will be the next one? Both are so timely and have been critically acclaimed. I consider the latter an epic and I hope if it is not next week’s, then in the near future.

We have reviewed before and chosen it as a movie of the year. Given the current purge, it is a good one to revisit.

Question: From AS

Catherine: Mercola again featured your Planet Lockdown video on 1.16.21. In a paragraph in the section “The End of Currencies” he states this: “As explained by Fitts, the central banks are currently working to bring a new economic transaction system online. This would be CBDCs, aka central bank digital currencies. This is one of the reasons why I strongly believe that holding crypto assets like Bitcoin, Ethereum and Polkadot, could serve to protect you from their plan. Not only will they appreciate by anywhere from 10 to 100 times, but they are decentralized and can immunize you and your family against this nefarious plan.”

My question is: If CBDC comes to fruition, will other cryptos (Bitcoin, Ethereum, etc.) be usurped, or otherwise made defunct by CBDC? I don't quite trust that anything other than the BIG would be allowed, or would remain secure and untouched under such a scenario.

I would love hearing your thoughts on this. Thanks!

CAF Notes & Links:

1. They regulate the others into the ground
2. They let them die slowly on the ground
3. They allow a small market to percolate along

All the cryptos run on their hardware and systems – so are unlikely to protect unless we institute massive grassroots encryption as Binney has suggested.

The surviving alternatives should have a digital and physical component. Digital alone will not do it.

Question: From TR

I am not a large investor. I have invested most of my capital in real estate, single-family rentals, therefore not very liquid. I am 75, have 22 rentals, and

am curious about your opinion of what effect the Democrat (One World Order) policies will have on my investment. Normally, I would think there will be inflation, which should not hurt me too badly, but even though I have an MBA degree and was pretty good at managing companies, I am not very knowledgeable about the Central Bank operations and would appreciate your advice on what my best plan of action should be.

Question: From JM

Hi Catherine. I'm a new subscriber and am absolutely fascinated with you and your body of knowledge about so many things.

You've talked and written about the harms of vaccines and the devastating toll that they have taken on too many children and their families. Have you delved much into the world of psychiatric drugs and cult of modern biomedical psychiatry that touts them as safe and effective when they destroy untold number of lives? I follow Dr. Peter Breggin who is an activist about these drugs and have heard your interview with him on his radio program discussing other topics. Big Pharma has hijacked psychiatry and made absolute fools of all of them as they behave like a cult masquerading as a medical profession and science. It's so shameful that in my opinion it shouldn't even be designated a medical speciality any longer. I'd be most interested in any of your commentary about psychiatry in general and psychiatric drugs, specifically. It's an atrocity how they have been foisted on trusting patients by doctors who are willfully ignorant of their dangers when they are, in fact, no safer than chemo.

I live in Memphis so I'm glad to know that we're nearly neighbors! Thanks for all that you do and for being a beacon of light in this dark world.

Question: From W

Hi Catherine:

I have begun doubling down on supporting local sources of fresh food in my area, opting for local and regional stores for every single item that I can regardless of cost and minimizing purchases at places like Whole Foods and Costco.

I ran into one issue last week at my local co-op. I buy everything organic if I can find it. When it came time to buy carrots, I could purchase locally-grown carrots not certified organic (but gmo- and pesticide-free), or purchase USDA-certified organic carrots not locally grown. I am running into the same issue researching farms in my state. It looks like getting USDA-certification is not worthwhile for many local farmers, whether it's for grass-fed and grass-pastured animals or fruits and vegetables. And there's plenty of criticism of lax organic standards here in the US compared to other countries (or even compared to certain states' standards here); I just read that 'organic' livestock production here permits the administering of a host of different vaccines. As you always say, "Who's your farmer?" I can trust the USDA organic logo, but not the word of long-established local farmers? (For what it's worth, I am a proud Weston A. Price member, but my local chapter contact never got back to me.)

What say you? Also, I remember you often mentioning a local dairy farm in or around Hickory Valley that went out of business due to food safety rules. If it's possible, I think a Solari Report interview with them would be an interesting listen.

CAF Notes & Links:

Question: From KN

I have been reading and listening to the various items on Solari and am very impressed with Catherine and her team but also all the subscribers

comments/poems etc! Thank you for all who contribute.

Question: on the vodaphone bit chute link (it is amazingly informational!), he mentions that one gets ill after about 6 mos. of exposure...I wonder how long it takes for people to become immune to the mm waves and not affected anymore?

Another question: with all this forewarning and knowledge that we have here (which I thoroughly enjoy reading) with no way to prepare (I am not sure about prevent either, as I see what Mr. Globalony did to Trump in the USA), other than supporting with donations, which I have done, isn't it worse to know what's going to possibly happen? Wouldn't it be freer to simply be blissful and enjoy the rest of our lives?

Please help me reconcile this debate I am having with myself...

CAF Notes & Links:

I am a great believer in knowing when to duck. In my experience, people who understand the risk issues and do a good job of navigating the risk, do better in this environment. Spend time with a family destroyed by vaccine injury? Was their ignorance blissful? No. Their ignorance contributed to killing and maiming one or more of their children in a manner that wrecked the resources available to the siblings, caused divorce, poverty, etc. I have seen such ignorance allow families to be destroyed by financial fraud. And on and on. The goal is to develop a good map and then use that map to significantly improve your effectiveness in investing your time and resources for the best result for you.

Question: From HN

SOS: Trying to save a tooth, or two

Three "holistic" dentists have told me that one of my molars has a dying nerve that cannot be saved since it's hot & cold sensitive. I have another molar that is also intermittently hot & cold sensitive.

My only options, they told me, are root canals or extractions. I've had a few root canals in the past, before I learned of Dr. Hall Huggins' work, so no more for me.

I'm not convinced that there's nothing that can be done. After all, if everything in the universe is vibration, correcting a presumably unhealthy vibration should be possible.

Any suggestions of someone I can consult, dentist or otherwise?

Much appreciated

Dr. Thomas Levy was just on the Wellness Series. I would check out his website as he is an expert in the topic.

There is also an excellent 2-hour documentary [on Royal Rife?]. We have played several times in Lets Go to the Movies.

Royal Rife

Hi Catherine, I just saw your comment to Richard Lindo's post about Royal Rife:

"There is an excellent 2 hour documentary. We have played several times in Lets Go to the Movies."

A Solari search on Royal Rife didn't turn up any documentary, only a review of The Field: The Quest for the Secret Force of the Universe.

If there's a documentary about RRR, I'd love to watch it. If it's not on Solar-i.com, can you give me the title?

Question: From KR

Hi, Catherine, and Happy New Year.

I just came across this documentary film about the mother lode of missing money parked in off-shore havens: https://www.youtube.com/watch?v=np_ylvc8Zj8

Would love to see you sink your teeth into the matter with a special Solari Report on the subject.

BTW, it seems to me that if you want to find out where Mr. Global lives all you need to do is to find someone to hack into the off-shore haven accounts, as I believe happened in Panama several years ago.

In any case, how hard can it be to find a Russian hacker, preferably an adolescent, who'll have you a list of names and addresses by the end of the day! The producers of the film list five sane and legitimate steps that can be taken to shed light on off-shore havens so that we the people can recover the revenues that ought and should be taxed. But I'm afraid if we go by the book, the devil will continue to outwit us. So, pray for a hacker with a conscience and the talent and the skills to hack his way to the truth.

All the best, always,

Question: From G

Dear Catherine,

First of all I would like to express a huge thank you to you and your team for vigilantly, honestly, and insightfully sharing news, opinions and actionable intelligence related to current events. I have found the Solari Report to be an invaluable source of pertinent data in my endeavor to find solutions based actions I can take on a daily basis.

I am curious have you ever looked into having Dr. Zach Bush on for an interview? I feel like he could provide some really practical ‘actionable intelligence’ (on the individual, day to day preventative medicine front and also for more broad topics like regenerative agricultural initiatives).

Also, have you read either “Braiding Sweetgrass” (by Robin Wall Kimmerer) or “Entangled Life” (by Merlin Sheldrake, son of Rupert Sheldrake)? I would greatly appreciate if you would consider doing a book review on either of them at some point.

Lastly, I was hoping to ask you if you have you seen any of these films/tv episodes?

1. “The Man From Earth” (2008)
2. “The Last Mimzy” (2007)
3. X-files season 10 episode 1 “My Struggle” (2016) and season 11 episode 10 “My Struggle IV” (2018)

The first two items (the movies) are just interesting stories that I would love to hear your thoughts on (particularly with regards to The Last Mimzy, a

family oriented sci-fi where people from the future are trying to prevent a catastrophe by making contact with two gifted children in the present. I found the depiction of the dystopian aspect of the future in which people were wearing full body suits / ‘socially distancing’ to be interesting considering current events.). The Man From Earth is just more just some philosophical food for thought written around a fun twist in the story.

The x-files episodes on the other hand contain content of a more profound nature that I feel is very pertinent to current events. The first episode (you can watch here: <https://www.dailymotion.com/video/x61t0qr> especially the part starting at time index 27:25 in the episode) has a scene where Molder character does a speech where he describes various covert activities of ‘Mr. Global’ (that I know to be factual and not fictional) and I am wondering if you feel this was part of some kind of psyop (to discredit anyone who would talk about that subject matter, because it must be ‘made up’ as it is “on that x files show so how can it be real” kind of thing) or do you think that the content represented an attempt on the part of some writers to share truth with the audience?

The second episode (here is a promo clip for the episode: https://www.imdb.com/video/vi3436100889?playlistId=tt6803128&ref_=tt_ov_vi) is particularly interesting because the antagonist character is involved with engineering a global pandemic. I would really enjoy hearing your thoughts on those two episodes if you get a chance to watch them.

Thanks very much for your time.

I hope you have a lovely evening and a peaceful as well as prosperous week ahead.

With gratitude and respect,

Question: From PQ (email)

Thank you for your great work, for being you!

I registered after a video posted on YT by Senta Dupuydt recommending « The State of our Currencies ».

As we are all interconnected and bridges, here is my contribution. I recommend the book « Wars and Lies » by Canadian Sylvain Laforest. <https://editionscharlou.com/> He's made a tremendous job at re-telling the true story of History since 1773 up to today, explaining how we are governed, manipulated, divided because of bankers (Rotschild in Europe, Rockfellers in the US, to start with). Together with Ema Krusi, a swiss You Tuber and whistleblower, they've been smart at re-telling the story of the book through short videos. It's cap-ti-va-ting. And it just clarifies everything we are going through, with a good sense of humour too (Bankers, Big Medias, Fake News, Oil, Syria, Trump, Poutine) In French only at <https://emakrusi.com/galerie-videos/video-category/guerres-et-mensonges/>.

Let's join forces.

Love.

Antony Sutton interview re. Western assistance to enemies during war...

<https://www.youtube.com/watch?v=zTDvLmEBESY>

Catharine, are you familiar with John Calhoun's mouse experiments? I'll link a video in case you aren't...

<https://www.youtube.com/watch?v=NgGLFozNM2o>

It's interesting to see the comments about how his experiments were flawed in ways that would encourage behavioral sinks, but almost no one observes how closely they correlate with America's "welfare" experiments. Antony was exactly right about welfare socialism being a close relative to Bolshevism and National Socialism. Cybernetics, hidden in plain sight.

Catherine, you may want to add as sub-category to Dr. Gates Creepy Tech!

The latest podcast from 1/26 “Synthetic Biology for Enhanced Biosecurity: New Genetic Circuits and Switches” discusses bio-containment by building protein “on/off switches” to control the behavior of genetically engineered organisms (e.g., gene therapy in humans). **Are the mRNA injections instructing the build of these switches???** Note toward the end, Gabriel Lopez (the CEO/founder being interviewed) makes a comment about needing to track the Intellectual Property associated with the technology, something I think

Shadow Work

Question: From LDS

Dear Catherine:

I am a new subscriber. I'm trying out the Solari Report on a month by month basis while I explore content and weigh an annual subscription. I was first introduced to you a few years ago via a Youtube interview on some channel that I found completely bizarre - the Dark Journalist? - and on an even more bizarre topic, to me at least. More recently, I've heard you on Greg Hunter's show.

I see you have an "Ask Catherine" feature on your Money and Markets wrap up. I'm not sure if this question really falls there, but here goes. It concerns **Israel**.

There seems to be a particular thread that runs throughout the writings and videos of those who investigate the unseen way our world works, and the "little man behind the curtain," or as you refer to it, Mr. Global. This thread runs from the Rothschild progenitor right up to the creation of the State of Israel in 1948, and beyond.

This thread expresses the belief that somehow Israel came into being because - as I actually read somewhere - one of the Rothschilds wanted a country for himself in order to protect his interests abroad. Given both the miraculous nature and the extreme difficulty with how the modern Jewish State came to be (not to mention their ongoing challenges in the Middle East today) that

strikes me as one of the stupidest things ever to appear in print. It's the kind of writing that could be in a companion volume to "The Protocols of the Elders of Zion."

Which brings me to you. I've only heard snatches of things regarding Israel in the brief time I've had access to the Solari Report, but I recognize that thread. When you refer to Netanyahu and those who run Israel (I guess that's what you mean?) **who are you lumping them in with and why?** Is there anywhere you have already addressed this on your website? A report or an interview that explains your view? I didn't get the impression that you were an anti-Semite, so...what gives?

Thanks for any help.

And...since you are an avid reader, I have just started the book "I Am Cyrus: Harry S. Truman and the Rebirth of Israel," by Dr. Craig Von Buseck. I've read a lot of Jewish history from a biblical perspective, and this looks to be quite well done.

Sincerely,

First of all I just wanted to say I am a HUGE fan of you and Dr. Farrell, there are times when listening to you two have discussions actually grounded in reality (REAL reality, not the fake one!) is the only thing that keeps me sane. Because we do have two parallel structures of reality being constructed side-by-side, and what I wanted to bring to your attention is my research one of the largest frauds ever perpetrated in terms of constructing a "Fake Reality. This research is on the Income Tax Under 26 United States Code, or whether such a thing actually exists. You are infinitely more capable and knowledgeable so please if my information is completely off-base or I am missing something, please let me know.

I would really appreciate it if you would take a look at this, and show it to the appropriate people for further confirmation, and research. I'm going to attach a Mac and Windows file just in case. Catherine,

What do you think of FASAB56 as cover for implementing the quantum financial system?

CAF Notes & Links

Have you developed financial literacy of how the financial ecosystem works in your town, county and state?

If a critical mass of people stop building and financing the global prison and move away from mind control mediums and build instead things that are real and worthwhile, anything is possible. When we all sit on the couch believing we are only one person and what we do is not important and instead wait for a series of covert operators to come fix everything, we will continue to slide into oblivion.

This of FASAB 56 has a critical component of financial coup consolidation and further change of control.

Hello everyone, I hope you are all well and able to see some 'light on the horizon' beyond this dark night of the soul for our civilization which we are all currently living through.

I am posting today to see if anyone else here has watched the more recent (2016-2018) "X-files rebooted" episodes? I feel like the content in the first episode of the 're-booted series' is important to carefully analyze. It contains several scenes where there is a concise and accurate delivery of pertinent intel on active covert special access projects (presented under the guise of 'just being part of a script in a sci-fi show').

I remember when I first heard they were gonna be reviving the X-files series after so many years I was quite surprised as that is not common with shows that have been inactive for so long (especially not with the same cast). Well, I was even more surprised when I watched the first episode of the rebooted series, it contained segments where (as I said above) the characters described in precise detail, active covert operations being carried out by "Mr. Global" and friends (in a level of depth and precision I had not seen on any film or tv show to date.)

I would really value hearing some of your opinions on this material.

The two episodes I am speaking about are:

X-files season 10 episode 1 "My Struggle" (2016)

and season 11 episode 10 "My Struggle IV" (2018)

The first episode (you can watch

here: <https://www.dailymotion.com/video/x61t0qr>) Please pay special attention to the part starting at time index 27:25 in the episode) which has a scene where Molder and another character do a speech where they describe various covert activities of 'Mr. Global' (that I know to be factual and not fictional).

What do you think my friends? I am wondering if this was part of some kind of psyop (to discredit anyone who would talk about that subject matter, because the very fact that it was on the 'xfiles tv show' strains creditability for discussion the subject matter) or do you think that the content represented an attempt on the part of some writers to share truth and/or a warning with the audience?

The second episode (here is a promo clip for the episode: https://www.imdb.com/video/vi3436100889?playlistId=tt6803128&ref_=tt_ov_vi) is particularly interesting because the antagonist character is involved with engineering a global pandemic.

I would really enjoy hearing your thoughts on those two episodes if you get a chance to watch them.

Were they part of a Psyop? Or an attempt on the part of a knowledgeable writer/director or two to warn the public of what is really going on (and what would be coming down the road)?

Thanks for your time everyone.

With gratitude and respect,

Question: From AB

Hi Catherine

Given recent events and looming possible events my wife and I are looking at relocating away from Colorado to a more Conservative state that is less likely to mandate vaccines, interfere with my child's education, gun rights etc. I understand that one of the reasons you were attracted to Hickory Valley in TN was the financial stability of the state. What other factors did you consider for that specific location. Are there other places in TN you could recommend or indeed other states. TX and FL seem to be very sexy right now for an exit destination however that just seems to set things up for failure whereas TN is not really on most people's radar.

Many thanks for your great work

Question: From B

Hi Catherine,

Thank you so much for the work you do. I'll get to the point

1. In a discussion on Ep 1 of your recent quarterly report you were discussing how the US Military will be gutted under Biden. You also mentioned an analysis you recently read regarding China's and Russia's first strike capability against the U.S. My hypothesis is that they are setting the U.S. up for military destruction and possibly occupation by "U.N." Forces if the populism problem becomes too big. They must know that the U.S. Military will not, at least in its current state, turn against Americans. Do you think this is a viable hypothesis?

2. Even if the above theory is off target, I am concerned that patriots or pop-

ulists will be targeted in several ways up to and including rounding them up for “re-education” or worse. Is there any place in the world that is a suitable “Plan B” should targeted Americans need to evacuate from the U.S., or at least to a safe State within U.S., and start over somewhere. I have young children. I’m looking for recommendations I can investigate further.

3. On another topic, I work in San Francisco and it’s clear that the homeless and crime are being used as a tactic to drive people away. I assume vulture capitalism is the objective. What is curious to me is that SF appears to be immune from the worst tactics of rioting, burning and looting seen in other cities. My theory is that this is the case because it is the home base for so many of the establishment and technocratic elites. Do you think SF is “protected” for some reason?

Thanks again, I know you are busy but would love to hear back from you.

Question: From J

Catherine,

Your insight, experience and quest for truth that you share is so appreciated. Have only been a subscriber for 6 months but have heard you on various radio talk shows for years. Thank you for all you do.

Have not heard you express any actionable intelligence or opinion on life insurance policies. I’m 58 years old and 30 years ago I purchased and own several of the old dividend paying no load whole life policies with a fixed premium where excess dividends purchase additional coverage (X-Riders). Premiums were paid heavily up front the first 7 years to avoid being modified endowments and as stated from then forward the dividends have sufficiently paid the premiums with any excess purchasing addition coverage. They all have very considerable cash values so surrendering them would mean capital gain obligations. Also the borrow rate against the policy is way too high. The past couple years the dividends are barely covering the premiums but they have done very well up until then. Carriers being Great West Life (Canadian)

and Jefferson Pilot later acquired by Lincoln National. The insured is all my kids, spouse, myself.

Question is with the coming reset, what will become of life policies? Obviously it's getting more difficult for them to find the kinds of returns they're accustomed to. If the currency gets changed to a "credit at the company store" and if the "dollar" ceases being a viable currency will the insurance companies weasel out of their life obligations, as the contract premium and death benefit are all in US dollars? I read how carriers got out of honoring the business interruption claims from the pandemic. Will they find a way to do the same if suddenly millions of claims hit the industry from "injections" gone wrong?

Or going further down the rabbit hole, if carriers remain solvent would benefits even go to the beneficiary or would they go to the government in the case of a basic universal income? Could a clause be inserted that a recipient must agree if they receive a death benefit; they agree to forfeit it to the government.

My guts been off about this for months and finally I'm reaching out for any "actionable intelligence" you may have or related pitfalls I haven't considered. Insurance industry "experts" I've spoken to consider these old policies "gold" because nothing is available in the marketplace that even touches what these contracts offer. But that's if the system remains intact I would assume. Your response would be greatly appreciated and again thank you for all you do.

Respectfully,

Asked a financial expert: Here is what he got from a colleague. You need to
check this. Bottom line, you should talk with TSP and an IRA provider to
confirm that you can roll into an IRA without paying taxes if you want to.

Hope that helps,

Catherine

Answer from a colleague who specializes in govt employees with a practice
in DC. The short answer is yes and they don't have to pay tax unless the ben-
eficiaries are non spouse or children's generation as she says below..
“:Yes, you absolutely can roll over a Federal Thrift Savings Plan (TSP) ac-
count to an individual IRA -- assuming, of course, that the client has termi-
nated employment with the Federal government. There used to be a specific
form for withdrawals, but it is now done online.

I have done this several times for clients, particularly prior to 2019 when they
revised the TSP distribution rules and allowed for more flexibility regarding
withdrawals. Prior to Sept. 2019, once you started distributions, your only
option was MONTHLY distributions with an ability to change the amount
once/year. In 2019, the withdrawal rules were changed substantially to allow
for monthly, quarterly, annual distributions as well as one-time distribu-
tions. Thus, the decision to rollover TSP accounts to an IRA for flexibility is
no longer as strong. However, in my opinion, it is still easier to deal with

Schwab regarding distributions -- and changes to distributions -- than the TSP. To give you one example, I have one client who has been taking monthly RMD's and made the decision to suspend their RMD's in 2020 per the CARES Act. It now appears that he needs to get a notarized signature from his spouse to re-start the monthly distributions in 2021, something that was not required for the initial RMD distribution.

There is still one compelling reason to think about rolling funds out of the TSP. While the primary beneficiary can maintain an "Inherited TSP" after the original account holder dies, there is no such thing as an "Inherited IRA" for contingent, or secondary, beneficiaries. If the initial beneficiary-- e.g., the spouse -- keeps the money in the TSP, when h/she dies, the entire balance is paid to the secondary beneficiaries as a lump sum. It does NOT pass to the second beneficiaries as tax-deferred money. So, for example, if you have a retired Federal employee who has a large TSP and both s/he and the spouse were to die together, the kids would be paid the entire TSP in one lump sum, taxable payment."

Good evening,

Thank you for your contributions I have found them very useful and beneficial.

My question is can you direct me to any information you may have on the website relating to private pensions as it directly relates to the economy.

Is there a better means of investing instead of private pensions? I feel somewhat nervous about having my money in private pensions where it's being directly affected by policies being made that I don't agree with.

Please help if you can.

Catherine, I am a new subscriber i. XXXX. manages my ~\$5 million portfolio. After listening to you, it's clear that XXXX does not follow your investment philosophy since my equity investments include the standard fare of Walmart, etc. My guess is that they would not be open to my suggestion to alter my holdings to be more reflective of companies who support non-centralized values. I'm all for doing what I can to change the red button to green, but need my investment advisor to be on board. XXXX is most definitely not, as has become clear after educating myself through Solari.

Are there any investment/wealth advisors that you recommend who share your investment philosophy? I'm open to switching if I could find someone who would be a good fit. I'm at a bit of a loss to even know how to go about finding such a group at this stage in life as I'm 68 and single with no one to look to for such advice. I'm quite concerned that the coming reset and digital currency change will leave me penniless unless I take action now. Thanks in advance for any suggestions you could offer.

Question: From S&L T

Quick question.

This last week, our community was blind-sided by our school district launching a week long Black Lives Matter Week at School curriculum.

If you read the 13 principles (<https://www.ames.k12.ia.us/school-news/black->

[lives-matter-at-school-week-of-action-february-1-5-2021/](#)), it reads like some globalist or communist week long catechism class. What we now know is that our school board and administration has been infiltrated by radical leftists over the last couple years without us detecting it. Now the curtain has been pulled back. As you have been saying, our kids are not safe in the public school system. How right you were!!!

But being a solari subscriber, I'm looking deeper. I'm wondering if Ames is being targeted by outside groups....such as the billionaires real estate acquisition club. There has been a lot of re-development along the main drag called Lincoln way which runs through the Iowa State University campus and then east just south of the downtown area of Ames. In fact, it almost looks like a similar redevelopment that is currently taking place on Lake St. in Minneapolis. Hmmmm.

Question, can you let me know if Ames Iowa is in an economic opportunity zone? If so, I think we will be getting our house on the market now before the riots begin this coming summer....

We really appreciate you and almost feel like you are part of our family!!!

Question: From RA

Catherine, I have followed your video interviews on YouTube for over 10 years, and more recently viewed your documentary about our current and long planned for lockdown via pandemic. Now more than ever I am concerned for the times ahead, especially with knowledge of the planet lockdown that will not end; and, for preparations I must make to survive what is coming. Firstly, I will tell you that I trust in God with my life and protection for my family, for I know that for He loves us. He has given me the means to become debt free, and have the wherewithal to buy a small farm in northern Idaho for a homestead. I am however very concerned about how that in the coming technocracy people like us might find a reasonable strategy to navigate a path forward.

We have managed to purchase a large amount of the digital currency (XRP) created by the San Francisco called Ripple. I believe that after 3 years of research, that significant evidence exists to suggest that XRP is likely the digital currency that will be chosen by the IMF, and the central bankers of the world for cross border remittances.

I am confident that after so much evidence is woven throughout the relation-

ships between the US Treasury, The Fed, the World Economic Forum, and the great host of inter-dependent private and governmental entities that it is almost certain. My many years of research gives me confidence that our investment will provide for a means to obtain a homestead in our older years. It seems to me that this plan, however well intentioned or calculated might become a refuge but for a short time, maybe 5-10 years at best, until a mark for the beast system is required?

You are wise, and have knowledge about these things, and what “they” have planned for us. **May I inquire with you for advise, or perhaps a paid consultation?**

Dearest Ms. Catherine,

Let me start out by saying that I have not been following your work long. I only learned of The Solari Report when your documentary about the “pandemic” came out. In just this short time your insightful publications have meant so much to me because they validate and verify long standing suspicions that I have held and been nay-sayed about by even the most knowledgeable people I’ve known. So on to my question..

I think we’re all in agreement that the current world is changing. Things that once mattered soon may not. **When it comes to higher education i.e. degrees; are there any fields or specializations that you would recommend pursuing?** Granted none of us can see the future I thought maybe perhaps you could **take a guess at what you believed would be more worthwhile not only due to demand but because of the financial benefits as well.**

Will discuss on the next Ask Catherine. I have not missed the significance of this election, just as I did not miss the significance of:

1. The creation of the private prison industry and the entrapment of millions of people into slave labor camps starting in the mid-1990s dovetailing with narcotics operations run with the help of US intelligence and enforcement
2. The financial coup d'etat of trillions from the US government and the bubbling of the housing markets with significant securities fraud designed to empty US pension funds of real assets replace by funny paper.
3. The assassination of American citizens to effect political control, including scores of witnesses to the Kennedy assassinations and after the church commission.
4. The use of electromagnetic weapons and techniques to target, mind control and target citizens and use them for a variety of purposes
5. The growth and use of false flag operations, including 9-11, and related police state laws, including OKC Act, Patriot Act, push for new domestic terrorism law as the ultimate step to maintain a decades long “negative return on investment system.”
6. Increased election fraud (black box voting) and covert operations to engineer every election I can remember.
7. The financial bailouts doubling down on the financial coup
8. Spraying heavy metals and nanoparticles over our heads starting in the mid 1990s at a minimum, and addition to our food supply combined with the steady deterioration of the food supply and the consolidation of the farm land.
9. Use of weather manipulation and “natural disasters” as weapons of war and control
10. The adoption of FASAB 56 and the end of any financial integrity to US government and corporate financial statements and hence the US securities markets

11. The going secret of Harvard endowment and other pools of Capital
12. The adoption of the Going Direct Reset in 2019
13. The issuance of extensive cloud contracts by the US military and multiple implementations to build the smart grid into human brains and bodies.
14. The ingestion of enormous amounts of propaganda, advertizing and mind control to keep Americans from pushing the red button, including in their approach to the last round of elections.

Under no circumstances did I miss the 2020 Presidential election. If there is any signal that this is an important event to the deterioration of representative democracy, it is this so many Americans continued to believe that their help would come from the White House in any major or significant form – including from a guy who adopted FASAB 56 and gave \$10 billion to big pharma to poison us. And they wasted millions of hours paying attention to it instead of switching the real power lines. The election was rigged by the same Masonic networks descended from the one that created America and which has been rigging elections ever since I can remember. The gap between running a global empire and pretending that citizens in the dark who have absolutely no understanding of the empire or what it takes to run and risk manage it can be trusted to have a say in the middle management and pork allocations to them has become unbearable.

While our situation is dire, it is nowhere near as dire as it will be if we trash the Constitution and the second amendment and allow centralized control of the food system. So I am not going to help anyone do that by saying it is over. As Rappoport says ” Hopelessness is an op, and its planet wide.” He also points out “This is a 10,000 year old war.” That is correct. I view it in that perspective. I try as much as possible not to help the people centralizing control.

It is not over – because I assure everyone here if and when it may become over and there is no more Constitution it will likely be MUCH MUCH MUCH MUCH worse than it is now. MUCH.

Strongly recommend you listen to this week’s Going Direct Reset.

Question: From C

Hi, Catherine. I would like to ask your opinion on something. I officially moved to SW Florida in September. Subsequently, I saw a presentation by David Icke which included a chart from event 201. The chart was color coded to designate future land use (I guess you would call it) of this country. The chart was colored mostly with spots of red and yellow with a bit of green. The red was meant to designate no human population. SW Florida was the most solidly red area on the entire map! I have been concerned about being here especially due to water issues. It is very beautiful with amazing weather, in my opinion, as a senior citizen who wanted to escape the cold. However, now I am wondering about the future of this already fragile area which is growing leaps and bounds with folks leaving northern cities. I am thinking either the elite want to clear it out to have for themselves or they just want to destroy it as it is more trouble than it is worth to them. Your opinion? Thank you so much.

I am also still looking for my tribe so please let me know of any meet ups in Florida. Thank you. C.

Good afternoon,

For some reason, it looks like you live in Basel. Is this true? My husband and I live in Lugano, but also have a small house on a mountaintop in southern Italy. We moved here in the spring of 2019, and of course the world has gone nuts since then. I'm a new member.

Do you have any specific advice or insights into those of us who are expats, what to do with our money? We are renting here, and are planning to move the bulk of our taxable accounts (about \$600k) to Switzerland. We'll have to leave our IRA's in the US for tax purposes, and we also have federal civil service (FERS) retirements, will (hopefully!) get Social Security in 1 ½ yrs when we're 70.

If you could point us in the right direction, or give me a clue where to look on the website so we can try to navigate this great reset and support our local Swiss and Italian based folks.

Thanks for any insights.
