Question:
Hi, Catherine,
Are you taking new clients to help manage their investments? Can you send information?
Thanks.

Dear Catherine,
Being a huge fan of yours, I am wondering if you might be inclined to give financial advice for a fee? Thank you kindly for your consideration.
Blessings

Question:
Hi Catherine,
Do you recommend people take out life insurance on themselves and their family members in general? If so, can you provide a way to vet the right life insurance company?

Sincerely,
DC

CAF Notes & Links:

Question:
Aloha Catherine….thank you for your support….I have been watching you awhile!!…..I have the major part of my investments in Sprott Physical Silver...........am I wise to keep my investment there?  Is it safe?  I also own in my possession...diversified in safe deposit bank and in my possession gold and silver. I am 72 yrs old.....this is what I depend on to support myself...with only a small income of SS .MY QUESTION IS: HOW SAFE IS SPROTT?....AM I BETTER TO HAVE IT PHYSICALLY IN MY POSSESSION?

I appreciate your advice very much....Aloha Nui loa

Question:
Hi,

I saw in your interview with Del on The Highwire that you said The Solari Report contained a list of the central banks so we would know which banks to avoid. I can't find that list anywhere on the website. Can you please point me in the right direction?

Thanks,

J

Question:
Hi Catherine:

If we try to conduct 'legal' transactions with silver and gold, aren't we required to use American Eagle coins at their face value? For example, if silver is currently priced at $25.00 and I have a $25.00 transaction, I would have to pay with 25 American Silver Eagle coins (because the face value is a dollar), rather than just one, correct? Whereas if I pay with a Canadian Maple Leaf one ounce silver coin, all that is required is one coin
because it is not American currency and you go by coin value rather than face value, true?

Sorry if that's confusing. I've been contemplating purchasing silver but want to make sure I buy the better of the two.

**CAF Notes & Links:**

**Question:**
I guess, I have many questions, and I hope I am not asking some that have been asked before, but I have been looking thru everything and am a bit overwhelmed with all the info.

I live in Malibu, Ca, and definitely don't want to be here for long, but I don't grow my own food. I know there are so many farms around me, but is there a way to join a local coop or find them around here?

Also, I have money in the stock market right now. I have bought some silver and gold, but what is your overall recommendation as what to do with the money in the market, and if the dollar crashes and I have taken all my money out and have it in cash, won't the value be down anyway? I have a good deal of money over a million, in the market, and I am not sure the best way to hold onto that value if things collapse. I can't imagine having that much money in silver and gold? Or is that what you would recommend.

Thanks so much,

K R

**CAF Notes & Links:**

**Question:**
Hello Catherine,
A friend who is quite informed on economics says that the stock market is about to undergo the most devastating crash in history. What is your take on this?
With appreciation,
Pf

CAF Notes & Links:

**Question:**
How about taking some time with Mr Titus to explain what it means when the Fed grows its balance. If you grow a balance sheet you need a debit and a credit. So when the Fed is buying assets where do they get the money to grow the balance sheet. Does that mean they can also make money up for themselves?????? We know they can make up money for the Treasury federal notes. But how on earth can they make up treasuries and then make up their own money to buy the treasuries. We just sit around and pretend this is normal. They are buying the country and its assets with made up money ARE YOU KIDDING ME??? Please expand on this.
Thanks

CAF Notes & Links:

**Question:**
Hello,
My car insurance is with USAA, and I’d like to open a new bank account but I’m not sure where I may end up so I am considering opening a checking account with USAA which has ATMS all over the US, any thoughts… is this a step in the right direction at least? Will every bank no matter how small or large essentially follow the same rules since they are regulated and insured by the same federal reserve? They offer free checking and paid interest on accounts with 1k+ so clearly they are investing those funds….
Thank you

Question:
My state has a mandate that we have the JAB to work. I remember seeing your legal form that you made available to help us opt out.

Thanks, and THANKS so much for all that you do and love your interviews.

Comment:
Catherine,

In case you haven't seen:

**New South Wales Public Health Amendment (Vaccination Compensation) Bill 2021**
No , 2021 A Bill for An Act to amend the **Public Health** Act 2010 to provide for the payment of compensation to workers who suffer injury, loss or damage as a result of a requirement to be vaccinated.

It'd be a miracle if it goes through.

J

Comment:
Hello Catherine,

Interesting if this "traditional" vaccine under development in India proves to be a safer, more effective, lower cost alternative to the Big Pharma shots, and if so, whether Mr. Global will find a way to kill its further development, production, and distribution. A chief advisor to them is Dr. Robert Malone, inventor of the mRNA vaccine technology, who has come out against the safety of the Pfizer-Moderna-J & J shots. Phase III trial forecast for 3rd Qtr 2022. A two-shot protocol. Looks promising so far. Intended for mass distribution to the poorer income groups in India and 3rd world, plus North America.

CAF Notes & Links:

Question:
Given the dire predictions of doctors who are speaking out about the deadliness of the vaccine, what are you all observing? I have dozens and dozens of people who are fine and have not shown any ill-health as a result. I have a few who got health problems that I think could be linked to the vaccine. I know that the problems might show up later, but I'm wondering what you all are seeing.

People on twitter are reporting that Jacksonville center ATC controllers walked out last night due to jab mandate. 650 Flights shut down. Another report says Southwest Airlines
did the same thing causing about 2,321 flight cancelations today, Oct. 9. Source Tom Sauer@twitter.

New Zealand Covid Class Action re:COVID-19 Public Health Response Amendment Bill (No 2)

Dear Solari circles,
There is one day left to make submissions to the committee before second reading. Attached is a notification of liability to oppose this seriously despotic legislation. Kiwis needed now. The site for the bill is:

Please review the submission attached below and improve it if you can. Please pass around to any in New Zealand to oppose this bill.

Pray for grace, pray for a miracle. Pray for Catherine and co-conspirators

**Question:**

Hi Catherine:

Do you have a preferred method of disposing of old cell phones and computers?

**CAF Notes & Links:**

---

**Question:**

Hello Catherine,

I have read many places that the WH, Congress and their staff, FDA, CDC, NIH, and the Postal Service are exempt from the vaccine mandate. I can’t verify that information. Do you know if it is true and which document lists them?

Thank you

**CAF Notes & Links:**

---

**Question:**

My husband a surgeon just got called but did not answer from a PA state detective Roger Riser it sounded like asking to discuss the position of physicians in our institution regarding vaccine.

No idea if it was employee complaint or admin complaint or what. It may have been a nurse overhearing two dr’s talk about not being pro covid jab.

Also, another physician said 14K fine from govt for any unvaxxed employee.
Any thoughts?

T

Catherine,
I thought you would be interested to know about this Maine bill that will be on our November ballot. (The posting comes from “Maine Stands Up” which is one of our medical freedom groups.)
I am a new subscriber and learned of your work from Thomas Meyer’s The Present Age. I appreciate your work and also that you are offering some Anthroposophical insights through Thomas' spiritual academy. Many thanks,

N M
Question:
Catherine,
There is one particular good that we all need that usually costs no less than $600: a firearm. Could the IRS technically create a “gun registry” without the ATF by tracking purchases like this?

Comment:

Question:
Most of the exemption forms I see are quite old, predating the so-called approval for the jab that isn’t available yet. Are there any employer exemptions forms from recent weeks? The excrement is getting deep.
Question:
I know that the thought of reptilians posing as humans sounds strange – it did to me when I first heard about this from a friend in UK about 8 years ago. However, the actions of many in power to deliberately destroy humans via tainted food, toxic injections, mind-control, emf radiation, etc. etc. makes it hard for me to believe they are fully human.

Here’s a short 3 minute video of an interview with Bourla – https://www.youtube.com/watch?v=Zpcu14UXewQ

Would like to know if others have similar doubts if these monsters are even human – what do you think?

Hello Catherine,

I would like to nominate this man called "Bushcraft Bear" for hero of the week. Bear is located on La Palma and reports twice per day (except on Saturday's) about the volcano that they have been experiencing for over 2 weeks.

The reason for my nomination is because Bear is truly a breath of fresh air in honest reporting that allows us as the viewer to learn along with him. He is the true definition of a citizen journalist and is an absolute treasure. I cannot recommend him enough. This is the only youtube channel where I have seen consistently heartwarming and positive comments. I highly recommend going through some of his latest videos to learn more about him and about what is happening on La Palma. It would be great to link him up with Elze van Hamelen (I loved your interview with her!) as he gets my vote for top journalist in new media!

Here is his link:
https://www.youtube.com/channel/UCZB7zNCil3F6uWCJZa-qdVQ/videos

Thanks again for all that you do for humanity.
Warm regards,
A

CAF Notes & Links:
California Gov. Gavin Newsom on Wednesday signed a bill that stands to dramatically expand the state’s CBD industry by legalizing retail sales of a wide range of CBD products.

The governor’s signing of AB 45 means that non-intoxicating cannabinoids, including CBD, can be sold as dietary supplements and as ingredients in food and beverages.

The bill lays the groundwork for the sale of smokable hemp in California, but lawmakers must first pass a measure to establish a tax scheme for those products before they can be marketed.

Hemp producers can immediately begin growing and manufacturing smokable products to be sold in other states.

The now-signed legislation contains various requirements for testing and labeling of hemp products. It additionally lays out rules for selling items with hemp-derived cannabinoids in California that are produced in other states.

The California Department of Public Health will now get to work crafting rules to implement the legislation, which also allows cannabinoid-infused cosmetics and pet foods to be sold.

The article elaborates on the fact that laptops and chrome books given to students during the pandemic by US school districts, aka the government, used surveillance technology. This is a direct quote from the article linked below:

"More than 80% of surveyed teachers and 77% of surveyed high school students told the CDT that their schools use surveillance software on those devices, and the more reliant students are on those electronics, unable to afford supplementary phones or tablets, the more they are subjected to scrutiny."
