

ASK CATHERINE

May 29, 2023

Introduction:

We include questions submitted through <https://shop.solari.com/ask-catherine/> and posted at Subscriber Input.

Thanks for your questions!

ORGANIZED BY CATEGORIES:

- A. Cash and Precious Metals
- B. Geopolitics & Financial Markets
- C. Equity Overview
- D. Feedback
- E. Health & Food
- F. Local Gatherings
- G. Recommended Links
- H. Take Action
- I. Other
- J. Additional Resources

[Appendix: Important Links](#)

A. CASH AND PRECIOUS METALS

1. Question:

What questions should I ask at my Annual Credit Union Meeting 5-23-2023?Hi Catherine,I sent your CBDC's template letter to my Credit Union recently, addressed to my Bank Branch Manager. The response letter I got was from the Chief Operations Officer (not the Branch Manager) – which said "The Credit Union deals solely in the United States Dollar for all transactions. While my choose to purchase digital transactions with their funds, the only funds held by the credit union are the United States Dollar." I feel they didn't answer my question- at all "what are you going to do to protect your members from the coming CBDC? The rest of the letter told me to contact my US House Representative – Andy Barr, and US Senators Rand Paul & Mitch McConnell.

Given this response – what questions do you recommend I ask at the Credit Union's Annual Meeting next week?Thank you so much! “JB”

2. Question:

2HOW DO YOU RECOMMEND TRANSPORTING A COIN COLLECTION OR CASH ACROSS THE STATES IN THE EVENT OF A MOVE?

CAF Notes & Links:

3. Question:

Hi Catherine,I've been working with Joe Santonne of the Lee County Republican Party. (the guy who authored "Ban the Jab") He has been promoting that all over Florida in an attempt to get all of the MRNA jabs here banned and destroyed, since they are bioweapons. I also emailed Richard Werner who recommended Florida set up a State Chartered Bank that allows silver and gold transactions, get the State to set up 2 dozen community banks and ban FedNow in Florida. I also suggested we work with other States who have signed anti CBDC legislation. Joe suggested a write a resolution to the Lee County Republican Committee. I also called Frank Niceley's office to see where TN was in the process and Amber got back to me and said that you would be there in July to help them in their Summer Session. She told me Elizabeth, who works with you was going to call me because she is also working with someone in Florida. It would be great to find out what else is going

on here. If I can generate enough interest and gather enough people is there anyway we could get you here in July to help us?

Please let me know on an email if it's at all possible and if so what dates. We may also be able to get people from Tampa and Naples to come and we could try to invite some of the elected officials. If you have the time, maybe we could organize a separate meeting for subscribers. If we can get enough grass roots interest to do this here in Florida, since Ron DeSantis did sign the legislation banning CBDC we may be able to get something done here.

Banning CBDCs without figuring out an alternative will not work. Hopefully we have some leverage now that we know for sure he's running for President. At least we'll get to see if he is serious about it.

B. GEOPOLITICS & FINANCIAL MARKETS

4. Question:

Banking system & stocks versus credit union

I'm not sure what equity overview means but I listed in the item above what I wanted to ask. I'm listening to you this morning with another gentleman you mentioned something about they're trying to destroy U.S. Bank he does that include local credit unions?

And I've taken a large amount out of my credit union for precious purchase of precious metals. I was going to replace it with removal of some of my financial stocks and putting it in the credit union or should I just leave the money in the financial investment firm?

CAF Notes & Links:

5. Question:

Hi Catherine!

Thoughts on investing in T Bills given the debt ceiling drama? Any chance the government would default on the bills or interest in the event of debt default?

Thanks so much, "D"

CAF Notes & Links:

6. Question:

Catherine,

Have you seen this?

[Kiev officials & Samantha @PowerUSAID are in DC celebrating how the Ukraine war kicked off a “new age” of “e-governance.” Alongside the Executive Chairman of Visa, they are openly describing the sacrifice of Ukrainian civilians on the altar of Western finance & tech:]

“p”

CAF Notes & Links:

7. Question:

Hello Catherine,

Last week you mentioned that you would look to high-quality bonds as a basis for a Fixed Income Portfolio that could be an alternative to an Annuity. What resources would you recommend to help identify high quality bonds? US government Treasury bonds are considered high-quality but I am pretty sure these are not the ones you had in mind. How about bond ETF's?

Thank you!

D. FEEDBACK

9. Question:

no need to respond

a recent episode i think it was the weekly wrapup with carolyn and catherine, in which at the end carolyn said she forgot to make her voice softer... i love carolyn's voice and i think it is soft and warm and easy to listen to. grateful for everything you post. mostly i listen, because i'm busy with my hands or it's the middle of the night and someone talking helps me get back to sleep. not long ago i was very leftish so many of your presentations are like jumping into a cold lake... i wanted to tell you about a guy who we have listened to alot, regarding emf's, full spectrum light, and things like cold thermogenesis: jack kruse. i think he went off the rails abit about bitcoin. a guy who was one of jack's top contributors is easier to listen to: scott compton, lifestyle hygiene, www.lifestylehygiene.com . but i think he's gone back to a regular kind of job and doesn't have so much time for advising. from what i've gathered from all the info we've been able to understand from many sources that they reference, and especially from jack, cell phones esp now with 5g are probably our worst enemy. and distance from our devices is very helpful. and blueblockers when viewing screens. and full spectrum sun on as much skin as possible, esp in the mornings. esp uv. esp in our eyes... thanks again. be well

10. Question:

Thanks for feedback on Video performance

11. Question:

Hi Carolyn and Catherine, I took your advice and watched the series “in full” of Battlestar Galactica. I never managed to get past episode 6 or so because of too much hate and intrigue and not much heart. Even worse, the heart that is in it, mostly comes from the “supposed” enemy.

The curveball that this is a cyclical affair is interesting as well as intriguing, but the idea that a devolved species infiltrates a pristine planet and its inhabitants is quite another conundrum to ponder over.

Both parties got a second chance which seemed fair to me but in order to break the supposition of the cycle today, humanity needs a lot more awakening of the heart.

Art has always served two masters, and today has been for the most part, swallowed up by adversaries and the good heavily suppressed by them. All art from paintings, music and writings to the more modern movies have brought all matter of subjects to us, including transhumanism in all its facets.

Why do you think that becoming a individuated person with an open heart is so difficult for humanity regardless the adversaries thwarting that in order to subdue us to slavery, and God only knows, other unsavory reasons? Any other insights on the Battlestar Galactica series?

12.Question:

At the Sioux Falls Meetup, we learned that people don't realize that they need a different login & password for Solari Connect. They try their Solari Report Login, it doesn't work, and they give up.

Perhaps step #1 in the Circles website copied below should be "Create a Support ticket to get a Solari Circles Login"<https://home.solari.com/solari-connect-user-procedure/>

Or perhaps on the connect main page it should say "Contact Support HERE <hyperlink> if you don't have a Connect Login. Your Solari Report login will not work."<https://connect.solari.com/>

15. Comment:

Catherine,

How helpful do you think a bill like this is in actually preventing the introduction of CBDCs in Florida or other States?

[SB 7054 — Central Bank Digital Currency]

https://www.flsenate.gov/PublishedContent/Session/2023/BillSummary/Banking_BI7054bi_07054.pdf

It looks to me like they are laying all the groundwork to create a situation where the Fed and perhaps our legislators will say they have no choice to remain competitive internationally and because of all the consolidation domestically. I guess my question is can a State really stop this? It looks like NC and SD may be getting on board too.

5/17/23 [Dr. Rashid Buttar and the Coronavirus Agenda]

<https://rumble.com/v2ocmig-dr-rashid-buttar-and-the-coronavirus-agenda.html> “We are pleased to be joined by Dr. Rashid Buttar who will talk about the Coronavirus Agenda: the real story behind the origin of Covid-19. He will also talk about how governments are using this agenda to roll back our civil liberties and who is behind it.

Laura Lynn's always had amazing guests over the years. She just went worldwide this week.

Dr. Buttar's conference was supposed to happen next weekend but got cancelled [Advanced Medicine Conference]

<https://advancedmedicineconference.com/>

[Dr. Rashid Buttar: "I Had Been Poisoned With 200 Times The Amount Of What's In The VACCINATION."]

<https://twitter.com/i/status/1660445674410852353>

Curious timing w/the release of Watch the Water 2 last week.

5/20/23 @drtaubraun Dr. Rashid Buttar had stated publicly that he believed he had been poisoned with venom – he was in ICU months ago and he reported that his bloodwork showed multiple venom sequences were present. He was put on a highly publicized list by The Center for Countering Digital Hate called the “Disinformation Dozen.” RFK jnr is also on that list. @Rfk4POTUS

If I found a list like this as part of a school/ workplace violence assessment – I would call it a hit list. Can we expect any additional assassinations or was this a case of exposure to Venomous Spike Proteins through shedding, as he was unvaccinated?

From the NPR article “Both members of Congress and state attorneys general have urged Facebook and Twitter to ban the “Disinformation Dozen.” – maybe politicians should use caution when targeting citizens.

The Hit List

UFOs and the Dead: An Interview with Joshua Cutchin (Walter Bosley)

With technocracy puched upon us, humanity risks a great deal in loosing true diversity via our rich folklores strewn all over the earth. A very interesting chat between Walter Bosley and Joshua Cutchin. Like weird then this is for you.

We live our entire lives knowing that death awaits us. The hopeful believe—they insist—that some part of us endures after we make our final transition. Their convictions are corroborated by eyewitnesses who swear to have seen spirits of the dead haunting the living... and even appearing during alien abductions.

Is the UFO mystery reaching out to us from beyond the stars... or from beyond the grave?

This staggering implication demands not only scrutiny of the UFO phenomenon but nearly every unexplained mystery haunting us today. In this first of two volumes, Joshua Cutchin takes readers on a methodical journey through ancient traditions to lay the crucial foundation for a new mythology of death and the paranormal.

Welcome to the ecology of souls.

Stunning Revelations on Covid-19 by Dr. David Martin
In this 20-minute video, Dr. David Martin tells the European Parliament some very stunning facts about the history of Covid, coronaviruses, patents, and the science and the events behind them.
He shows us that the Covid virus was developed here in the U.S. as a biological weapon and then patented, and was then given the Wuhan name well before the supposed outbreak of the virus in Wuhan.
He also shows us how the plan was to release this bioweapon on the public, showing documented evidence on this, as well as showing documented evidence about discussions that were had around how profitable and exciting this would all be for investors.
[This is the most important video you will watch this year. Millions were killed with Covid-19 for profit. "Covid-19 was an act of biological warfare perpetrated on the human race. It was a financial heist. Nature was hijacked. Science was hijacked."] <https://twitter.com/KimDotcom/status/1661698114917646336>

Here's a New Movie Showing Interviews With the Covid-Vaccine-Injured
Here's the link to a new movie that was just released, showing Covid vaccine adverse reactions here in the U.S., together with interviews featuring top medical experts and nurses, as well as interviews with the vaccine injured...telling about their stories and their journey.

There is also a whistleblower featured in the movie, who was deeply involved in the Pfizer trials to get their vaccines approved, and she shows us how Pfizer lied, altered the data, and did not follow the proper protocols to get their vaccines approved.

With this in mind, Pfizer then basically submitted a completely fraudulent report on the safety of their vaccines to the FDA, and their vaccines were then approved. Then, near the end of the movie, we see a statement mentioning that Pfizer's position is basically that since the FDA approved of their vaccines, this proves that Pfizer has done nothing wrong.

AI, Moloch and the Genie's Lamp

I find his idea that "digital passes" could be needed in order that The Powers That Are can differentiate between humans and AI, a compelling one.

I think The Powers That Are already can emulate a complete compelling fraud not distinctive from the real. But since those fiends like to hide behind others they are giving chew toys all tools to do it for them.

I don't think they are up to the task just yet, but that will be remedied within a short period of time. Sadly, no shortage of paid shills to do dirty work.

Twitter Bankruptcy Proceedings: Venue for Musk to Reveal Gov't Control?

[The questions and musings below are based on the assumption that the facts and dot-connecting in the article linked below are generally on target:

[Musk Admits He Doesn't Control Platform Censorship Decisionmaking – Watch the Twitter Financials]

<https://theconservativetreehouse.com/blog/2023/05/29/musk-admits-he-doesnt-control-platform-censorship-decisionmaking-watch-the-twitter-financials/>]

Twitter is not viable as a business model under the construct of its creation. Twitter operates on Amazon Web Services (AWS) cloud and Google Cloud.

My two related questions are: 1) If Twitter files for bankruptcy (owing Amazon cloud and Google Cloud \$300M annually just for server access) what would those proceedings necessarily reveal about the private-public partnership between the intel community and these global corporations and online social media? ... about ownership of the internet's infrastructure and its value as global population surveillance?

2) In what kind of financial shape would Musk emerge from such a bankruptcy? What would be his actual losses, and what might be his potential gains?

While it might be that Elon Musk is an altruistic believer in free speech, it could also be that he purchased Twitter to gain leverage within the private-public sphere because so much of his financial successes (Tesla, Space-X, etc.) are dependent on US Gov't contracts or subsidies. Admittedly, that is thinly based on the timing of Musk purchasing Twitter after a Biden speech in which he conspicuously did not mention Tesla among supported US electric car manufacturers.

Any leverage would theoretically come from Musk's ability to reveal from within Twitter how much limiting control US agencies are exerting over civil liberties while spreading disinformation.

But that card has been played to some extent via the Twitter Files releases, and now the curtain has been pulled back on other countries' control over information, with Musk's declared inability to do anything about it.

So the leverage hypothesis only makes sense when transparency is threatened, not when it's played out and dissipated.

So which cause would the actual bankruptcy proceedings benefit most, business leverage or free speech?

H. TAKE ACTION

46. Question:

The State and local towns are cutting ALL trees down anywhere near a power line in CT. Even 20 feet away. It's really odd – most trees are in really good shape – some too small to touch any lines. As they were cutting a very cool looking ancient small Pine tree near the railroad tracks (it did not reach or touch any wires despite it's age – was not near the lines but came between the lines above and the road/sidewalk below), I asked the police woman directing traffic – why would they cut that tree down? She said "It interferes with transmission." Is something about to be transmitted that is going DOWN onto the road and sidewalks – vs. parallel along the power line lines? If so is something about to happen and how can the general public set up any protection or strategy for electronic incidents?

CAF Notes & Links:

I. OTHER

48. Question:

I'm a resident in Peru now and being told by my financial advisor Edward Jones that they can not support me unless I live in the States. It seems the company XXX keeps popping up that I could use to help take over helping me manage my investments. Do you have any recommendation for a financial advisor for my situation that may also do taxes? Edward Jones worked nice for taxes because TurboTax would pull in directly and process all the forms.

CAF Notes & Links:

49. Question:

Dear Catherine,

I so appreciate your honesty and courage, I could listen to you for hours! Thank you so much for this wonderful site and the work you are doing! I'm planning to relocate to Tennessee from CrazyOregon (asap), mainly due to the work you've done regarding safeguarding small farms and farmers, raw dairies, etc. Even though I write children's books and I'm not a farmer I like the rural, more natural lifestyle of farming communities. I want to ask which part of Tennessee you like best for your own personal reasons. Again, thank you for being such a brilliant and courageous lady!

51. Question:

Do you think the alien narrative is to get all countries to think there is a common enemy and accept one world military?

CAF Notes & Links:

52.Question:

Just an idea. In the late 1960s, during the civil rights movement, legislation was passed that by a certain year (maybe 2030 or 40) the USA needed to have a population of less than 50% white. I can't remember the audio book I was listening to. Is that what started driving the influx of Mexicans? I thought the video showed the increase starting in 1970s.

53.Question:

Both Catherine and John Titus have bragged about a bicycle that they each own, but neither say what bike it is. My guess is that this bicycle comes from the bicycle company that Catherine has mentioned as being a quality company. Since she does not offer investment advice, saying the name of the bicycle might be construed as offering investment advice. If so, I understand not sharing the name of the bicycle. If I'm wrong, then what bicycle do they own? I live close enough to a grocery store that I can easily walk, but I wouldn't want to make that trip while carrying groceries. I'm preparing for a time when my car is limited on mileage or gasoline is unavailable. Whew! that was a lot of words to ask, "What kind of bicycle do you own?"

54.Question:

Does anyone know what is the difference between a 4680 salt carbide battery and a lithium battery for Tesla electric cars?

I feel like these are not good cars period, but I have a very smart electrician who thinks they are the best thing ever.

I don't know where to go to get good info on them.

55.Question:

There are so many paradigms/theories that today are assumed to be the truth but they're all fiction; multi-billion dollar works of fiction. These include germ theory (there are no viruses or pathogens of any kind) and disease theory in general, nutrition (that carbohydrates are good for people is an injurious lie), climate change, economic theory, rocket propulsion in space, possibly peak oil and others. Now here's one more for you to think about. Have you ever seen a true photograph of a DNA strand? As with viruses, **all** of the available images are artwork. No real photographs exist. People have been brainwashed for decades via media and Hollywood and co-opted 'educational' institutional 'teaching' to believe in DNA. Where's the true evidence?

The world of 'science' is trying with all its might to turn all of life and humanity into physical elements that be observed and measured, but life and creation is far more complex than that, and beyond the ability of today's scientists to comprehend. But they won't admit it. Their prestige and livelihoods depend on it.

The world is spiralling into self-inflicted destruction because there's a massive deficit of integrity. Without integrity, people can be bought. Most of today's leadership in numerous fields have been bought. The rest of us now have to start questioning **everything** we assumed to be true and **everything** we are taught by those same institutions. We have to start from scratch and find the truth without the interference of entrained or compromised experts who are only experts in fictional matter.

I can tell from your recent tapings that you know an incredible amount about what's happening in so many different fields of our world. You're one super intelligent and tough cookie. Love you. Take care.

P.S. I'd like to know which false flag forced Richard to cancel the release of his book. It must have been enormous. His false flag 10-episode series on gaia.com is eye-opening.

56.Question:

Hi Catherine,

Would you please let us know what type of bicycle you have (make/model)? You and John Titus speak regarding love of bikes so I am curious as to the type you utilize.

Thank you!

57.Question:

Can we get a Solari Connect Group "Midwest Connect"? At the Sioux Falls Meetup we had attendees from 4 states, and it would be nice to keep in touch.

58.Question:

Digital ID's will be the cattle tags. Digital currency will be the whip. 15-minute cities will be the corrals. Tens of thousands of cities all over the world will be converted into corrals.

This is a major extermination operation. Those within a 15-minute city will not live long. They will either die of starvation, or from the jab, or of injury from whatever the '5G' towers will emit.

The great reset does not refer to the economy. It refers to humanity. Mr Global's master's goal is to reset the human population to near-zero without firing a shot, and most of humanity is happily going along. In countries where people reject the extermination jab, severe famine is being implemented.

59.Question:

Hi Catherine and team,

I have a healthy un-vaccinated 'senior' friend who would like to eat lunches with the community at our local Senior Center, but they are requiring vaccination and checking card status I think this is illegal. Can anyone clarify or point me to some info on this subject.

Thank you!

CAF Notes & Links:

Good question. Feel free to refer your contact to me; I help people with these issues for free. Whether it's a private business or a public institution, the solution is usually as simple as providing a religious exemption letter (because it triggers the religious discrimination laws).

Greg

60. Question:

I don't have a mortgage, but they are still giving away money. I wonder what the details are for losing your house buried in this stuff.

Any ideas?
