### 1. Question:

Greetings from Bermuda!

Last month I sent a wire from Bermuda to the States (in US dollars) as I do every month, to a particular beneficiary. Normally it takes about 24 hours however, this time the funds did not appear in their account. After speaking numerous times with the call centre, an officer from the Bank, in Bermuda finally called me to say that the wire had been stopped by their correspondent bank and they needed to know what the funds were for. I couldn't believe what I was hearing but this was the bank that turned off my account because they needed proof of identity for an account I've had since I was five years old!

I said to the officer, "The wire was stopped because you need to know what the funds are for?" She replied, "yes, that is right."

I then asked her, "How much money do you spend personally on alcohol each month?" I continued as I could hear her gasp....."It's a rather invasive question so one can imagine how I feel as a customer of the bank being asked what I choose to spend my money on."

The discussion lead to, "We do this for our customer's protection against money laundering, etc. etc." I wasn't buying it but unfortunately I had to give an answer, albeit a vague one, so that the wire could be approved.

All three of our local banks have been bought by International Banks (this one being HSBC) so we don't have much of a choice. I need a local account to operate in Bermuda but also for cross border finance. I've looked into a bank called Zenus, a new Global Digital Bank but I'm wondering if I'd be switching from one control grid to another.

As always, I appreciate your thoughts.

Sending my best wishes and thanks to you and the Solari Team! "T"

**CAF Notes & Links:**

## 2. Question:

Not really a question..a happy observation. I moved to the Hill Country in Texas last Sept. I find many if not most small business here either give a discount for cash or charge more if you use a card. I have used cash for most everything since I moved from NY i 2005.

A penny for your thoughts...I heard somewhere that possibly Texas was being retaliated against via weather (excessive heat) for having a separate electric grid. I suspect it's possible..and you?

Catherine, I have such wonderful memories of the time in Stavoren ..the meetings, the excursions and adventures..and the fabulous Riiks Museum! Thankyou!!

## 3. Question:

Dear Catherine and Caroline,

Thank you so much for helping subscribers make decisions. It is greatly appreciated.

For those of us blessed with sufficient hard assets and still holding too much cash what is the best way to exchange US Dollars for Swiss Francs? What do you think about opening a Swiss Franc denominated account with Julius Baer Group? Would it be a better idea to exchange physical cash dollars for physical swiss francs at a UBS United States branch without opening an account there (if they would allow it)?

Are American Express and American Express Bank better than MasterCard and Visa?

Sincerely, "L"

**CAF Notes & Links:**

## 4. Question:

I have observed my Banks implementing daily and monthly withdrawal limits (bank transfers to external accounts). For example, from TD to credit union, and TD to Old Glory Bank, it is a \$2500 daily limit and \$20k monthly limit (not on the TD side). This is a new Bank practice. Has there been some regulation/legislation recently or just a liquidity measure to prevent bank run? thank you.

**CAF Notes & Links:**

**5. Question:**

Hi Catherine

Who owns a country's gold reserves? we keep hearing about Central Bank gold reserves, but with Central banks being private companies, what does this mean for the people of the country who are the ones who paid for, and will ultimately need these reserves for stability in the future? regards “J”

**7. Question:**

td americatrade moving to schwab rollover ira

Do you know of any rollover ira's that are protective during this time in history. If you have a site and or representative's name – please share. I just received notice that this change is happening automatically if I do nothing by 8.24.23

Kind Regards, “J”

**CAF Notes & Links:**

## 8. Question:

I am still concerned about life insurance. We do not have a relationship with an insurance broker. My husband is 85 years old and I am 74. He created a life insurance trust in 1997 with Northwestern Mutual on the advice of a friend, not really knowing what he was doing, not using a trusted broker. I asked you about Northwestern Mutual last year and you replied that it was one of the best.

It makes me nervous when I read things like the recent statement posted on gab by Douglas Gabriel (aim4truth.com): "The plan has always included the destruction of the healthcare industry. The insurance industry around the medical industrial complex will also collapse as will life insurance companies. I cashed in my whole life insurance policies several years ago when I saw how the dominoes would collapse – the industry itself and their investment funds. You can already see this happening with auto and home insurance where companies like State Farm and Farmers are leaving California and Florida, respectively."

Cashing out of the policy now creates another problem as it seems there are no longer any safe investments for a large amount of cash. We know we can invest in the family and we are already doing that. We don't live in a community that we can invest in. There are no farmers in our immediate area. For the past few years we have been buying food from Amish farms that ship to us. We might be able to invest in them but they may not be able to provide us with food if the big shipping companies stop operating.

What would happen to life insurance if CBDCs are forced on us?

**CAF Notes & Links:**

## D. Feedback

### 9. Question:

Dear Catherine,

This is not meant as criticism, it's meant as an alternative opinion that I hope you will think about. I've been watching your interview with Naomi Wolf where you repeatedly referred to her talk as a rant. Clearly, you are using this word in the social media vernacular, however, if I were she I'd be deeply insulted. The dictionary definition of rant is "to speak, write or shout in a loud, uncontrolled, or angry way, often saying confused or silly things." I don't think this is how you mean to describe Wolf or that you're characterize her, but words have meaning. Frankly, I think the twisting and distorting of our language by misusing words such as "rant" is a psyop. (I've been mulling over how to write about this and keep notes on the topic.) Please, please, please consider not using that word.

Thank you for your kind attention.

**CAF Notes & Links:**

### 10. Question:

I'm a new subscriber. After watching the latest 'Money and Market Reports' my question is what is 'Real' assets ? I understand real to mean things like gold, silver and property. Is there anything safe beyond these ? I'm looking to not lose money. You don't need to take time to personally answer but perhaps expand in a future video. Thanks. PS I'm enjoying my subscription and learning. "P"

## 11. Question:

### Vaccine Incentive Program for Providers

Anthem Blue Cross and Blue Shield Medicaid

#### COVID-19 Vaccine Provider Incentive program

Getting vaccinated against COVID-19 is one of the best and safest ways people can protect themselves and their families against the virus. As a participating practice in the COVID-19 Provider Vaccine Incentive program, we recognize your hard work by offering incentives for helping patients make the choice to become vaccinated.

##### Eligibility

The COVID-19 Vaccine Provider Incentive program is open to you if you are a participating Kentucky primary care provider with an Anthem Blue Cross and Blue Shield Medicaid (Anthem) panel size of 25 or more members. All Anthem members identified as receiving COVID-19 vaccination services are included in the methodology. Vaccine results will be determined by a COVID-19 vaccine claim or by confirmation from the Kentucky Vaccine Registry.

The results will be calculated for two time periods:

- September 1, 2021 – Initial incentive payment
- December 31, 2021 – Final incentive payment

##### How you can qualify for a bonus

If your practice meets the below thresholds for vaccination with at least one dose by September 1, 2021, you will receive the initial incentive payment based on the following rates:

- 30% Anthem members vaccinated – \$20 bonus per vaccinated member
- 40% Anthem members vaccinated – \$45 bonus per vaccinated member
- 50% Anthem members vaccinated – \$70 bonus per vaccinated member
- 60% Anthem members vaccinated – \$100 bonus per vaccinated member
- 75% Anthem members vaccinated – \$125 bonus per vaccinated member

The final incentive payment is calculated based on members who are newly vaccinated between September 1, 2021 and December 31, 2021 (see the *Appendix* for calculation examples). If your practice meets the below thresholds for vaccination with at least one dose by December 1, 2021, you will receive the final incentive payment based on the following rates:

- 30% Anthem members vaccinated – \$100 bonus per newly vaccinated member
- 40% Anthem members vaccinated – \$150 bonus per newly vaccinated member
- 50% Anthem members vaccinated – \$175 bonus per newly vaccinated member
- 60% Anthem members vaccinated – \$200 bonus per newly vaccinated member
- 75% Anthem members vaccinated – \$250 bonus per newly vaccinated member

<https://providers.anthem.com/ky>

Anthem Blue Cross and Blue Shield Medicaid is the trade name of Anthem Kentucky Managed Care Plan, Inc., independent licensee of the Blue Cross and Blue Shield Association. Anthem is a registered trademark of Anthem Insurance Companies, Inc.

FYI. SEC Press release from May re: fraud

[SEC Charges Red Rock Secured, Three Executives in Fraud Scheme Targeting Retirement Accounts]

<https://www.sec.gov/news/press-release/2023-93>

Washington D.C., May 15, 2023 —

"The Securities and Exchange Commission today announced charges against El Segundo, California-based Red Rock Secured LLC, its CEO, Sean Kelly, and two of its former Senior Account Executives, Anthony Spencer and Jeffrey Ward, in connection with a fraudulent scheme that involved convincing hundreds of investors to sell securities in their retirement accounts to buy gold and silver coins at prices that included markups far greater than the defendants had promised.

According to the SEC's complaint, since at least 2017, the defendants repeatedly solicited investors through false and misleading statements, telling them to "protect" their retirement savings by selling securities held in their federal employee Thrift Savings Plan accounts, 401(k) plans, and Individual Retirement Accounts to invest in gold or silver coins at only a 1 to 5 percent markup. In reality, Red Rock charged as much as 130 percent in markups, which allowed them to pocket more than \$30 million of the more than \$50 million they received from investors. . . ."

**CAF Notes & Links:**

**17. Comment:**

Catherine and Caroline:

Below is a Zerohedge article about a "crisis" in the auto insurance world. We saw some companies quit writing home owner policies in California, now we are look-

ing at auto insurance premiums sky rocketing. The companies cite higher property damage costs (more expensive repairs), high medical costs (worse injuries?), and of course litigation expenses (blame the lawyers).

This means two things for Solari Subscribers in the United States: 1) More unin-sured on the road ways; and, 2) The industry is going to make the claims process as difficult as possible and force more claims to litigation and delay, delay, delay! Warren Buffet, the owner of GEICO, loves to brag about how much money they make on "the Float": the time between when an insurance claim is made and when it is paid. If you are in an auto collision, expect low ball offers, aggressive litigation, and a long fight.

Legal expropriation coming to Germany

“Lastenausgleich” i.e. burden sharing

“Germany's economy is in free fall and more and more people are at risk of poverty due to high inflation and poor employment prospects. State redistributions and expropriations are therefore becoming increasingly likely. And so it is not surprising that an old idea, which led to the greatest redistribution in Germany's history, is being brought back to the table by politicians. The talk is of burden sharing. A new equalization of burdens has been planned for a long time and will come!”

The videos are in Germany, but the YouTube version has a translation function.

**28. Comment:**

Trump Report Card

Trump gets a huge demerit in his Report Card for Warp Speed a.k.a. mass murder. According to Martin Vrijland, however, “Donald Trump conducted Operation Warp Speed to save billions of lives and expose the deepstate.”

He proposes, “President Trump used Operation Warp Speed to force the Cabal to deploy their bioweapon injections before they were fully prepared. Had he not done so, the following would have happened: he would have been labeled an enemy of the people by the Democrats and fake news media for not providing a “vaccine.” They would have deposed him again. We would still be in lockdown

with mouth-mask mandates. The Cabal planned to lock us up for more than 10 years. The economy would have been destroyed. Millions more would have died from food shortages and depression. After 10 years, when millions had already died from lockdowns, vaccines would have been deployed and made mandatory. It would have been injected by force and at gunpoint into a depressed, sick and demoralized population. Instead, the Cabal was forced to release the vaccines early under the EUA. The injections would have been more lethal otherwise. The Cabal wanted to cull the world population to 500 million according to Georgia Guide-stones. By accelerating the process, they did not have enough supplies and cold storage to kill the planned number of people. Instead, many people were given placebo or inactive mRNA because of improper storage.

Remember, Trump told us from the beginning that the virus came from a laboratory in China. He explained what it was, and he made sure we were aware of the benefits of HCQ, Zinc, Ivermectin and Regeneron. He told us about these treatments months before the bioweapon injections were used. Hydroxychloroquine is a synthetic form of quinine. Quinine has been used to treat colds and flu since the 19th century. HCQ and quinine are zinc ionophores. These help zinc enter cells to prevent viruses from multiplying there. They work both preventively and curatively. President Trump also placed people like Fauci, Birx, Gates, Biden, Soros, Schwab and Big Pharma in the spotlight, exposing their corruption to the world. It will be impossible for the Cabal to provoke another pandemic, as very few people now trust these corrupt players. In short, President Trump was placed in a difficult situation. People would die no matter what he did. But his actions ended up saving billions of lives worldwide. And when he is re-elected, he will bring retribution. Nuremberg 2.0 is coming.”

His thesis sounds a bit far-fetched and convoluted but it could nevertheless be true. Or is this just an attempt at whitewashing? I'd like to hear what others think ["Donald Trump conducted Operation Warp Speed to save billions of lives and expose the deepstate" - predictions coming true]

Good overview of what’s being planned

[The agenda for world domination]

<https://stopworldcontrol.com/ domination/>

SUMMARY of the insane plans of the World Economic Forum

“The World Economic Forum is the driving force of a radical transformation in our world. They say this metamorphosis of every aspect of human existence is needed to “save the planet”. What are their brilliant ideas, to “rescue” all of us? Below is a list with some examples...

Please be aware that the level of insanity in these officially published plans is beyond what any normal human being can comprehend.

This may cause us to dismiss it as nonsense. We must however understand that these are their actual objectives, most of which are in full development. All references for this can be found in the online version.

- ✓ Implement vaccine passports, which excludes people from society if they don’t continually take booster injections.
- ✓ Implement social rewarding systems, that give points when people comply, and remove rights when people resist.
- ✓ Move most of humanity into Smart Cities, where their thoughts, emotions and dreams are constantly recorded.
- ✓ Limit the distance that city people can go from their homes to 15-20 minutes. They will need permits to go farther.
- ✓ Install digital currencies that can be controlled by the rulers. Owning and spending funds must be limited by the governments.
- ✓ Eliminate ownership of private property. Everything must be rented: homes, cars, tools, even clothes.
- ✓ Block sunlight from reaching the earth in order to prevent “global warming”.
- ✓ Only allow information online that supports the agenda. Censor everything that questions or criticizes their plans.
- ✓ Promote homosexual education in kindergarten and first grade. Teach toddlers to masturbate and have sexual partners.
- ✓ Promote pedophilia as a natural sexual preference that must be included in society. Label opponents as “haters”.

- ✓ Indoctrinate school children to surgically alter their sexual identity without the consent of their parents.
- ✓ Reduce or remove personal rights and freedoms from humanity. Basic human rights must be recalibrated.
- ✓ Turn everyone into cyborgs, connected to the cloud, from where A.I. will constantly monitor them.
- ✓ Create a class of elite humanoids with superhuman abilities that will rule over humanity.
- ✓ Allow managers to see what is going on inside the brains of their employees.
- ✓ Use 5G to read people's thoughts and emotions, and to insert thoughts and feelings into the population.
- ✓ Replace doctors, lawyers, teachers, ministers, pastors, etc. with A.I.
- ✓ Allow A.I. to control humanity by telling people who to marry, what to shop, who to vote for, etc.
- ✓ Replace grass-fed beef with genetically engineered insects grown in factories.
- ✓ Convince the elderly to choose early euthanasia so they don't burden the economy.
- ✓ And so on..."

Catherine,

Know you get inundated with request after request for your presence and involvement in various important issues. Wrote you a couple weeks ago inviting you to attend the above conference sponsored by our newest House Rep, Sen. Mike Flood, in Congress. Info can be found at [www.flyoverfintech.com](http://www.flyoverfintech.com).

If you accept, will provide lodging and entrance fee.

It appears, among other things, Senator Flood wants to proceed with CBDC's and has not agreed to commit, in my mind, to withdrawing from the WHO among other things.

A response from you would be greatly appreciated. Thank you!

\* \* \*

Catherine,

Responded to your response to me directly but wonder if you received it. Could you plz check or do I need to copy and paste that msg into this format??? Looking for input on the Flood Flyover meeting 8-2-2023... Thx.

## I. Other

### 42. Question:

Hi Catherine and Team — Thank you for a wonderful newsletter! I have been well informed of your reporting over the past years and am so happy to find a home that essentially confirms my notions are not theories at all — simply conspiracies unfolding!

My husband and I have followed the "path" diligently for the past 30 years — me, devoting my career to Pharma (most recently in immunooncology) and my husband, to academia (electrical engineering) and now consulting for the DOD. We have saved carefully and grow well funded 529 college accounts for our three kids. In a state of Total and complete capture of academic AND financial institutions, I am at a complete loss as to how to "protect" the investment of our 529 and frankly of our retirement IRAs. At the same time, we are at a loss of where to send our offspring to college. Campuses are WOKE beyond WOKE and we have raised our kids with Christian conservative values. Fortunately, they will likely study in STEM fields, but it is a difficult course to navigate. Any thoughts on institutions? Ideas on financial tools within IRAs? Are annuities something to consider at this point with high interest rates? Thank you in advance for any guidance you can provide! Godspeed Solari!

### 43. Question:

Follow up on NASA lecture:

So the Astronaut Kathy Sullivan stated we have a parking problem in space. See Russia May have a satellite and then the US has a satellite and we have to just “fight it out” her words not mine as to who gets to park where.

Another question I had was when Baumgardener went 24 miles up in a balloon from NM then parachuted down why he didn’t land in the Pacific Ocean because the earth is moving every 24 hours? He of course said the atmosphere moves with him. Thanks to Dr Cowan I now ask “how do you know that?” “Who figured it out” “what was the process used and documented?”. So I asked at what mile marker do I cross the supposed gravitational pull of the earth and cross over to no gravitational pull called space?? He said it was 100 miles then 80 but when I asked who figured it out he said a cal tech professor John VOn NEumon who I could not verify that at all on what the internet had on this guy who died in 1957.

So I suddenly realized flat earth makes more sense than anything and the Bible says the earth is immovable. And of course all pagans worshipped sun and moon so makes sense that the earth is the center and not the sun. All the church fathers were against a sun centered universe.

Also if I get in a plane and the flight to Europe is seven hours coming and going yet one way you go with the rotation of the earth and the other you go against it then the times should vary on flights back and forth from the same location.

When I think of the beltway if I am at 12 o’clock and need to get to 3 O’clock I can go two different ways one takes 15 minutes one takes 45 but I can’t get there in the same amount of time in 2 opposite directions so how do planes do it? They official narrative may say 2400 mph on the one way but I asked a pilot who said the fastest commercial flights are only in the 800mph range so that is not possible.

The satellites may just be held up by helium and I supposed when they drop it is called an asteroid or something.

But the official narrative on satellites fell apart when the astronaut started on the parking problem narrative.

Then a young kid asked “what do we do with the garbage in space? She replied “that is a good question someone needs to solve, but we know that bringing it back to earth is not the right answer”

So if they are satellbaloons then I bed they just fall to the earth.

Nonetheless space is an absolute joke and as the the Bible says in Timothy “science falsely so called”.

I only have respect for people who farm and build buildings that don’t fall down. If I cannot see and understand it then it is meant to be a lie.

Everyone needs to be a Cowan and question things better

**44. Question:**

I want to highlight a book that I find extremely relevant to current events. I am a faithful listener to the weekly Money & Markets Report with Catherine and John. I found strong parallels between The steady incremental march toward totalitarianism and destruction highlighted through the review of weekly events and the events of the 1930's recounted in this book.

They Thought They Were Free: The Germans 1933-45

Milton Sanford Mayer

ISBN: 9780226511924 (ISBN10: 0226511928)

I started with the audiobook version (free with my Audible account) but I also found the PDF version available for download online.

If you are not familiar with this work I highly recommend having a look. Even if you read it in the past, I would suggest giving it a fresh look in light of the current world we find ourselves in.

I found chapters 13 'But then it was too late' & 14 'Collective Shame' especially critical to today. I was convicted by the statements of the Germans and forced to analyze my own thinking and mindset.

I hope some of you find this helpful and will have your resolve strengthened by looking at the past to understand the future. "J"

**45. Question:**

The Re-evaluation of Dr Simone Gold

I received the following e-mail from Dr Gold:

The movie trailer for "Always Under Fire" from SalemNow has just been released, and I need your help sharing it.

As you know, we are censored across the internet. Google, Facebook, and Twitter have a history of shadow-banning or outright removing our content from the internet.

Please watch the trailer here and please share it with your friends! Help America's Frontline Doctors get past the Big Tech censors:

From the first day that America's Frontline Doctors and I stood on the steps of the Supreme Court to expose the truth about Covid, we have been under fire. We have been censored, smeared, and I served prison time thanks to a wildly corrupted DOJ.

However, America's Frontline Doctors will not be silenced! Your liberty and medical freedom are too important. That's why I implore you to share this trailer far and wide. Our collective voice holds immense power, and by spreading awareness of this broadcast, we can initiate meaningful conversations and foster an environment where critical thinking and the truth triumph over deadly mandates, corrupt government bureaucrats, and greedy Big Pharma.

America's Frontline Doctors and I will never stop fighting to Drain the Science Swamp. We hope you enjoy the trailer and will tune in once the full program is available on SalemNow.

Thank you,  
For Liberty,
