### 1. Question:

Texas Bill Analysis:

S.B.2334, By Hughes, Finance, 4/27/2023

Senate Research Center 88R15622KBB-D

Rules for securing of the digital currency, preventing fraud by establishing and administering a digital gold currency!!

Catherine, is this something you would recommend?

Gold backed CBDC administered via the comptroller (with fees)...

plus cash and coin, maybe?

Then, each unit of digital currency issued represents a "particular fraction of troy ounce of gold" held in trust.

Catherine, I have no comprehension of the previous statement. What is a particular fraction? What is a Troy ounce?

AND wasn't there a story about Troy and a Trojan Horse?

Help! A retiree in TX.

### 2. Question:

Hello!

I have heard Catherine reference a phenomena as "The Rape of Russia" a few times on various Money and Markets shows. My search queries of the origin of this term have come up dry on the internet. Would you define what you mean by this phrase, and point to some resources on this aspect of Russian history?

Many thanks! "M"

### 3. Question:

I have a 401k I am considering rolling over into an Annuity for more diversification and a more guaranteed return. The current August rate on a 7yr annuity is 4.7% with 2.3% thereafter if the money isn't moved. I am trying to determine if I do the rollover now or wait to see if rates keep going up. My insurance agent has said the current rates are the highest he's seen on an annuity in 15 years. I am 63 and still working parttime so the 7yr term length appears to fit pretty good into when I will need to start making required withdrawals (70.5 yrs old).

What is your experience with annuities? Are they a sound investment? Or are there other investment options that do not involve the stock market?

### 4. Question:

Please explain crypto currencies.

1. Where they fit in wealth preservation.
2. Do they fit in an overall investment strategy?
3. How to best invest in them.
4. How risky are they.
5. Your opinion of crypto's.

### 5. Comment:

Hi Catherine, Carolyn & team,  
I don't know if this belongs on "ask Catherine", so feel free to skip it.  
I couldn't help but notice the new testimonials, so my opportunistic and hopefully creative endeavors sprang into high gear. Yes, yes, I like to get on testimonials also (LOL).

So, here it goes;  
Solari is like a prism. Lots in life is tied to money, but Solari shines bright beyond "financial expertise" in a very exhilarating and sometimes lifesaving way.

Regards,

yellow freight

Listening to your cast with Titus. Yellow was a customer of mine during the late 70's and 80's. Trucking was deregulated in the late 70's and the union firms were never able to shake the union which wouldn't acknowledge the business model wasn't going to be competitive against non-union competition. It's amazing they hung on as long as they did. These firms couldn't pay their bills in the 80's. The unions were allowed to cannibalize these firms until there weren't any of them standing. Yellow is just the last to go. No surprise. You either kill the parasites or they kill you.

Dear Catherine,

You’ve referred a number of times to a ion cleanse machine you use – is this it?  
<https://www.amajordifference.com/shop/ioncleanse-solo-by-amd/15-ion-cleanse-solo-system.html>

They seem to vary wildly in price but I’m imagining this is the type of thing you need the legit version for. Mum has recently been diagnosed with cancer and it occurred to me that this may help. I have sent her to my fabulous naturopath and is trying a new doc who is open to alternative treatments like the Vit C infusions. She follows Mercola but any other advice is also welcome.

### 9. Question:

Ms. Austin-Fitts,

Hi. I am originally from Hawaii. I am just shocked at the devastation on Maui. It seems almost impossible that an entire town was destroyed despite the high winds fueling it. Anyone that is from Hawaii knows that every single month at the beginning of the month a large siren goes off to test our emergency system which warns us of natural disasters such as tsunamis and hurricanes. This system was not activated as this fire was getting out of control, but instead with almost no notice people's cell phones were sent a message saying to evacuate. Why would they not use the emergency siren that we are trained on EVERY SINGLE MONTH of our lives?. Something seems a little fishy to me about this fire and it worries me that there are all these fires all over the place. This one has taken many lives and it almost seems just impossible that EVERY structure in this famous town has burned down.

Thankyou for hearing me out

### 11. Comment:

Dear Catherine

I realise this is not a question, but I just wanted to share some information with you and am using 'Ask Catherine' as a way to send it to you.

A while ago I listened to your report about Chartres Cathedral. That spurred me on to learn more and I found and downloaded this video which discusses the concept of sacred geometry as it applies to Chartres:

<https://www.youtube.com/watch?v=Au5uaxQZ1c0>

This video has long been on my 'To Watch' but I have finally watched it. It is fascinating. At time 34.00 they show parallels between the facade of the cathedral and the Hindu chakras. I found this to be more than a simple coincidence.

I have made a PDF of this segment with text and screenshots and am sending it to you attached in the hope that you and the Solari community might find it interesting as well.

QUIDs space currency

Catherine and Joseph have pondered the question of whether we are in an open or closed economic system.

In his recent video at time 47.00 to 50.30, Jeff Berwick shows a clip about QUIDs (Quasi Universal Intergalactic Denomination), a new space currency.

Apparently it has to be round.

Although this came out in 2007 I had never heard of it before. It could be another part in the puzzle to answer the question of the nature of our economy.

The Poisoned Needle, a book written in 1957

[The Poisoned Needle, a book written in 1957 (pause to read or DL it @ the link provided below video)]

\*<https://www.bitchute.com/video/iiKf0yoZzjeF/>

“I read this book many years ago (along with a few others) when I was researching the TB test /shot my employer was forcing us to take. The nurse and doctor at my employer (a hospital) said “its just a test”. Wrong! I learned that Phenol was one of the main ingredients of the Manitou TB test that the fraud Louis Pasteur invented.

They inject a poison under your skin usually on the back of your hand or on your arm somewhere. After a couple days if you don't react to the poison you don't have TB. Phenol is a highly toxic substance and I tried going to management and my union to tell them how BAD the TB tests were. NON of them cared or listened to me. My boss even said trust the science to me once. lol

I found out I could get a particular blood test to determine if I had TB or not to give to my employer BUT I had to pay for it out of my own pocket. (\$120 Canadian each test) They wanted us to get a TB test every few years then they wanted EVERY year then I heard they wanted it done 4 times a year and I knew there was something wrong there. Was there a TB epidimec happening? NO.

These toxic substances in vaccines and TB tests accumulate in our bodies and eventually they will make us sick or even kill us. I said I would gladly pay for the blood tests so I wouldn't be poisoned over time. Also my employer wanted to force us to take the yearly flu shot but thankfully the ambulance worker union said no to that and made it our choice to get it or not.

Download the PDF here: (while you still can, they are scrubbing this truth from the net)

Solari Team:

I hesitated to send this video link. This is a hot potato, but it is such a beautiful example of spiritual warfare. Tou Thao was the police officer, who held the crowd back during the George Floyd Incident. He did not lay a hand on Floyd, but stood nearby doing crowd control. The following video is his sentencing. His statement starts at 11 minutes in. He's talking to the Judge who convicted him and who is going to sentence him.

I understand if you would rather not talk about this one as it is a really charged topic. I do not know what evidence was presented during the trial and am not commenting on his guilt or innocence.

Thanks for your hard work.

Sincerely,
